In My Forty-Seventh Successful Numismatic Year!

Foreword

This Collection is what may be termed an "Old Time Collection." While a number of the greater rarities were acquired by Mr. Neil in recent years, the major portion of this splendid Collection was formed over a long period of years.

Mr. Neil is the kind of a collector after my own heart. A perusal of this Catalog will at once convince you that this is as representative a Numismatic Collection of our coinage as has ever been offered. Every series of our coinage, from the Colonial period down to the present date, is represented with many rarities of each series and the silver coinage is practically complete of the coinage of each of our seven mints.

Mr. Neil was a liberal buyer but a discriminating one. He never questioned the price of a choice, scarce or rare item and this has paid him off most handsomely. While he paid full market price for the coins at the time of purchase, they all now represent a handsome advance in value. The completeness of the Collection and the rarities it contains are entirely too numerous to mention here. Your perusal of this Catalog will convince you that Mr. Neil accomplished what so many collectors dream about but few make that dream come true, when you have a Collection containing such rarities as an uncirculated 1794 Dollar, an **1804 Dollar,** also Dollars of 1836, 1838, 1839, 1852 and 1858, also the **1870 S;** and **1838 O Mint Half-Dollar;** Quarter-Dollars of 1823, 1827, 1878 S and 1901 S; and 1876 CC Twenty-Cent piece, and the Dimes include for the first time in my Sales an **1894 S Mint** and the other series are all complete.

Mr. Neil is a native of Kansas. He was born near Solomon, Kansas, in 1894. He attended the public schools of his native town and received his higher education at the Kansas City College of Pharmacy, from which institution of learning he graduated in 1917.

His interest in numismatics began while serving his apprenticeship in a drug store in Solomon, Kansas. His employer possessed a good numismatic collection and made a practice of presenting his employees $3.00 gold pieces as Christmas presents. Mr. Neil later conducted a very successful drug business in Abilene. He retired from active business in May of 1946. Since then, to use his own words, he has endeavored to catch up with all the hunting and fishing he had formerly postponed.

As has been my custom for more than forty-five years, in cataloging important Collections, I have endeavored not only to faithfully describe the coins, but to give all possible historical and numismatic information about each series and each individual rarity. Also, as mentioned in my former Catalogs, while I have gone to much expense in producing illustrations of some of the rarities, no photograph of a real gem coin can adquatedly protray its real beauty.

The acquisition of coins missing from your Collection is always the source of much pleasure. I know. I'm a collector myself. But the acquisition of a coin from a prominent Collection such as this gives you double the pleasure. This Sale of a truly great Collection affords you that opportunity.

I respectfully invite your "presence" at this Sale with my assurance that your bids will be welcomed appreciatively and handled by me with the only thought in mind to make the transaction pleasant and, I hope, profitable to you.

Very cordially yours,

B. Max Mehl

THE TERMS OF THIS IMPORTANT SALE ARE AS FOLLOWS:

PLEASE READ BEFORE BIDDING

PLEASE NOTE: I respectfully solicit your bids for this outstanding Sale. I am sure that you will want at least some items from this great Sale. I assure you that your bids will be executed by me as fairly as if you had been present at the Sale.

BUT,—**before bidding, please read the following terms,** as they are the ONLY terms upon which your bids will be accepted. And no exception can or will be made for anyone. I mention this because at every Sale someone ignores the Terms as here published, and misunderstandings occur. I am endeavoring to avoid this. So please take a few moments time to read the Terms of Sale.

All bids are entered as received and the lots allotted to the highest bidder. Where two or more highest bids for the same amount are received for the same lot (and this happens very frequently) the first bid received gets the lot. Where two or more unlimited bids are received for a certain lot, the lot is purchased for the first received. Unlimited bids are executed at an advance of five per cent (5%) over the next highest bid.

When I receive your bids, I consider myself as your agent and execute your bids at as much under your bids as the next highest bid will permit. In other words, your bids are executed for you by me just as faithfully as if you had yourself been present at the Sale.

No commission charge will be made on purchases made for you at this Sale.

All lots are sold just as cataloged. No lot is broken under any circumstances. Please be sure and bid by the number of the lot and at SO MUCH PER PIECE. As an example, if there are ten pieces in the lot and you want to make your bid $1.00 for the lot, make your bid 10c, and not $1.00.

I guarantee all coins and notes to be genuine unless otherwise described or stated in the Catalog. **But all claims of any nature or for any reason must be made within thirty days from date of Sale.** My guarantee means something to you. Please remember that there are more than forty-five years of proven successful numismatic experience and ample financial responsibility back of my guarantee.

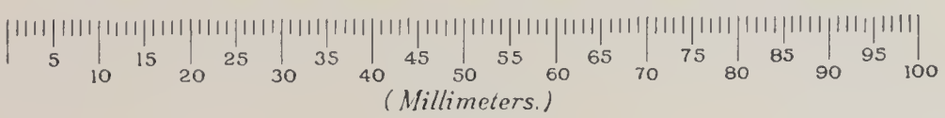
NOTICE TO NEW BIDDERS: Buying coins at auction is not the same as receiving coins on approval. The coins are bought for you on your order and you are, of course, expected to accept and pay promptly for them. Auction purchases are strictly net cash. Be careful in making your bids. Be sure that you bid on the correct lot you desire and at SO MUCH PER PIECE.

PLEASE NOTE: Parties unknown to me and who have not had any previous credit established, or do not have a financial rating in Dun & Bradstreet, must send a deposit of at least 25% of the amount of their bids, **otherwise they cannot and will not be accepted.**

The Price List of this great Sale will be printed on the same quality paper as the body of the catalog, and of the same page size. The Price List will show the amount each and every coin sold for. Price for this list now is only $1. But this price holds good only until date of Sale, after which the price will be $2.

Of course, all bids must be in my office on or before the date of sale. In this instance, I will appreciate more than ever before if you will kindly send your bids in early. By so doing you will earn my gratitude and you may obtain a lot which you may miss by sending your bids late.

The Size of Coins and Medals in this Catalog is given by Millimeters.



(Millimeters.)

PLEASE NOTE:

Again I respectfully ask you to please read the "Terms Of Sale" before bidding. I have thousands of clients to serve and please, therefore, uniform terms must apply to all, and no change from these terms can be made for anyone.

Next I call to your attention the Price List of this Important Sale. This List will show the prices at which each coin sold for. This Catalog and Price List will give you a wealth of coin knowledge. The cost of the Price List Now is only One Dollar. After date of Sale the price will positively be Two Dollars. Extra copies of this Catalog, if available, may be had before the date of Sale at Three Dollars.

UNITED STATES SILVER DOLLARS

One of The Most Complete Collections Ever Offered

A Specimen Of Every Date And Of Every Branch Mint Issued From 1794 to 1935 Inclusive

U. S. SILVER DOLLARS of the PHILADELPHIA MINT

The coinage of Silver Dollars began in 1794; discontinued in 1804. Coinage resumed in 1836, none coined in 1837; discontinued in 1873. Coinage resumed in 1878 and again discontinued in 1904. Coinage resumed in 1921; discontinued in 1935. None minted in 1929 to 1933.

Lot No. 1

BEAUTIFUL UNCIRCULATED SPECIMEN of OUR FIRST DOLLAR, 1794

1794 Probably finest known specimen! Head of Liberty with flowing hair facing right. The word LIBERTY above head, date, 1794, below. Seven stars to right and eight stars to left of head. Reverse; small eagle with displayed wings within wreath composed of olive branches. Legend, UNITED STATES OF AMERICA. Edge is lettered HUNDRED CENTS ONE DOLLAR OR UNIT'. Beautiful uncirculated specimen. Some short file marks in the die on upper obverse right edge. Usually, as is well known, the 1794 Dollar comes with the stars on left and corresponding side on reverse weakly struck. This specimen is undoubtedly a very early impression of the die, as the stars on left are just about as bold as those on right, and the legend on reverse is perfect and well struck. Hardly the slightest touch of cabinet friction. The feathers on eagle's breast all show. Full iridescent mint luster. Far superior to the specimen in my Sale of the great Atwater Collection where the coin brought $1,575.00. And comparing it with the reproduction of the specimen offered and sold in January of 1946 for $2,000.00, this coin seems to be far superior. I cannot say that this is the finest specimen known. I can and do make the statement that it is by far the most beautiful specimen of this rare Dollar

that I have ever seen or that has ever passed through my hands. And according to the records of somewhat inferior specimens, that of $2,000.00, this coin should bring a correspondingly higher price. In fact a rarity of this caliber in this remarkable choice condition is practically priceless. Valued by Mr. Neil at $2,500.00, which value I consider conservative. It is difficult to resist the temptation to get enthusiastic about a gem of this sort. Regardless of what the lucky buyer may pay for the coin it will pay him great dividends in the pleasure and pride of ownership.

Lot No.

2 1795 Head type. Same general design as the 1794. Flowing hair. Hair terminates in six points. Wide date. Reverse, two leaves under wings. Very fine. Scarce and in much demand. Catalogs at $25.00 in this condition.

3 1795 Type as last, but closer date. Curl distant from stars. Reverse, three leaves under wings. Hazeltine No. 5, where it is stated that this variety is very rare in choice condition. Strictly very fine; can easily be classed as extremely fine with iridescent purple surface. Valued by Mr. Neil up to $50.00.

4 1795 The rare variety with exact head as that of the 1794 Dollar. The figures 7 and 5 in date are double-struck or double-cut. The obverse is as Hazeltine No. 3; the reverse is No. 4. Very rare variety. Fine, strictly so. Catalogs at $40.00, but I think it is worth more.

5 1795 Bust type. Variety with seven berries in wreath. H. 14. Strictly fine. Very scarce. Catalogs at $25.00 but retails for more.

6 1796 The very rare variety with small date and small letters. Very fine. Very rare, especially so choice. From my Sale of the Roach Collection in 1944. Catalogs $50.00 and certainly worth it.

7 1796 Large date, small letters in legend on reverse. Die break over I in AMERICA. Very fine. Quite rare so choice.

8 1796 Small date and large letters on reverse. Variety with tiny die break appearing as a dot or period over 1 in date. H. 4. Very fine; free from any nicks or dents. A rare variety in rare condition. Valued by Mr. Neil up to $75.00.

9 1797 Seven stars to right and nine to left of bust. About fine. Very scarce and in much demand.

10 1797 Variety with six stars to right and ten to left. Extremely fine with bold impression. Variety with large letters in legend. A very scarce variety in rare condition. Valued at $50.00.

11 1798 Type as last, but with thirteen stars. (Small eagle variety.) H. 1. Close date. Very fine, especially for this coin. Seldom found better. Catalogs $50.00 and certainly worth it today.

12 1798 Type as last; small eagle variety, but with fifteen stars. Very fine. Unusually bold impression. Seldom equalled in condition. Catalogs $60.00. This coin has been in Mr. Neil's Collection for twenty-five years.

Lot No.

13 1798 Obverse as last, but with thirteen stars. Reverse, heraldic eagle. Just a shade from uncirculated. Only highest portions show slight cabinet friction. Iridescent mint surface. The stars on right are not as boldly struck as those on left. A beautiful specimen, and as such, rare and valuable. Record for equal specimens well over $30.00.

14 1799 over '98. Very plain over-date. Extremely fine. Variety with fifteen stars on reverse. Fairly broad milled borders. Rare so choice. Catalogs at $30.00 in only very fine. This one worth much more.

15 1799 Perfect date. H. 8. Upper portion of legend on reverse with broken die. Variety with six stars to right of bust. Very fine. Catalogs $17.50 and often retails for more.

16 1799 Perfect date. Six stars to right. Hazeltine No. 11. Obverse as H. 7. No berries on olive branch. Extremely fine, nice even impression; perfectly centered. Scarce so choice.

17 1799 Hazeltine No. 12. Obverse as H. No. 9; reverse as H. No. 11. Six stars facing. Large stars. Tiny planchet defect on right edge. Very fine, more so extremely fine. Very scarce so choice and in much demand, as are all of our early Dollars.

18 1799 The rare variety with five stars to right and eight stars to left of bust. A tiny nick on obverse left field. Strictly fine. Very scarce. Catalogs up to $40.00 in very fine.

19 1800 Perfect die in legend with the exception of light breaks through STATES. H. 4. Hazeltine states "very rare variety." Broad milled borders. Extremely fine with some luster. Similar specimens have records up to $50.00.

20 1800 Very wide date. Reverse, die break making the legend read AMERICAI. H. 11. Very fine. Catalogs $17.50 but retails for more.

21 1800 Close date. Same type as last but the die break on reverse is more pronounced. H. 19. Raised milled borders. Extremely fine. Rare so choice.

22 1801 H. 2. So-called wide date. Twelve arrows in eagle's talon. Strictly fine. Very scarce date.

23 1801 H. 4. Trifle closer date, and so-called "long" arrows. Very fine, strong impression. Mr. Neil purchased this coin as extremely fine. Rare, especially so choice.

24 1802 over '01. Very plain over-date. Very fine with bold impression, but few hair-line scratches on left obverse. Catalogs $22.50.

25 1802 Perfect date. H. 7. Obverse as H. 6; reverse as H. 4,—a very rare combination. Supposed to be an extremely rare variety. Strictly very fine; almost extremely fine. Well struck and centered. Rare and valuable.

26 1803 Small 3 in date. Strictly very fine. Well struck and centered. Quite rare so choice. Listed at $25.00, but retails for more.

27 1803 Large 3 in date. A beautiful sharply struck specimen which Mr. Neil purchased as uncirculated in 1927. I doubt if this coin has ever been in circulation, as only the highest portions show slight cabinet friction and the coin retains much of its original mint luster, iridescent surface. A beautiful and scarce coin. Record for equal specimens near $100.00.

COMPLETE SET of the BEAUTIFUL BRILLIANT PROOF U. S. SILVER DOLLARS of 1801, 1802, 1803, 1804

The First and Only Complete Set of These Beautiful Dollars Ever Before Offered. Probably the Only Complete Set Known in One Collection.

Lot No.

28 1801 **Perfect brilliant proof.** Struck from the identical dies as that of the 1804 Dollar, but struck at a later date. The borders are raised and instead of milling, the borders are of small dots. Only about twelve specimens struck and undoubtedly a lesser number now known to exist. This coin is just about as rare as the 1804 Dollar of this type which has an auction record of $2,875.00. This type Dollar brought $250.00 four years ago. These beautiful Dollars have not been appreciated, but I think they are well worth into the four-figure mark each.

29 1802 **Perfect brilliant proof gem.** Same type and variety as last. Just as rare and valuable.

30 1803 Variety with large 3 in date. Perfect brilliant proof. Same type as last.

The above three beautiful Dollars are from the Roe Collection I sold in 1945. They originally came from the famous Colonel Green Collection, and I believe that Colonel Green obtained them from the great Newcomer Collection. This is the only set that has ever been offered. These beautiful Dollars must be seen to be appreciated.

The CELEBRATED "KING of AMERICAN COINS"— The 1804 DOLLAR!

Lot No. 31

1804 United States Silver Dollar! The famous Idler specimen. The best known specimen of this great rarity. This 1804 Dollar is of the same obverse die as that of the first type. The reverse is also the same type as that of the first issue but of a slightly different die. The lettering, especially the words STATES OF, is slightly uneven, there being a bit more space between the last S in STATES and O in OF. The lettering on the edge is, however, far more pronounced than that on the first type. This identical coin has been known to exist for nearly one hundred years. It was at one time in such famous Collections as the John W. Hazeltine of Philadelphia, and was claimed by him to be of the first type or original 1804 Dollar. It was afterwards in the famous Granberg Collection, Oshkosh, Wisconsin; then in the celebrated Atwater Collection, at which Sale Mr. Neil purchased the coin for $2,875.00.

As stated in my catalog of the Atwater Collection, in the past fifty years or more there have been a lesser number of this type 1804 Dollars offered than of the first type. As far as my carefully kept records show, the first specimen of this Dollar appeared at auction in the Lyman Sale in 1912. The second specimen appeared in my Sale of the Ten Eyck Collection in 1922. And a third specimen in my Sale of the Atwater Collection. In point of actual rarity, this coin is just as rare as the first type of the 1804 Dollar. The Lyman specimen, originally sold by Mr. Henry Chapman at auction in 1912, was purchased by Mr. Waldo Newcomer of Baltimore, and when I purchased his collection I sold the Lyman 1804 Dollar to the late Colonel Green. I understand that the Colonel Green specimen was later sold for $3,200.00.

While I do not wish to convey the impression that the second type 1804 Dollar is as rare as the first type, which has a record of $10,500.00 made at my Sale of the Atwater Collection, but I do claim and feel certain that the 1804 Dollar here offered is nearly as rare as the first type and should bring a correspondingly high price. As stated above, the specimen here offered is by far the most famous and best known of the six or seven specimens in existence.

The BEAUTIFUL FLYING EAGLE U. S. SILVER DOLLARS of 1836, 1838, and 1839

Lot No. 32

1836 First type of the Flying Eagle Dollar by Gobrecht. Liberty seated. **C. GOBRECHT below base.** Plain field, no stars. Reverse, flying eagle to left amid twenty-six stars. (Denoting the number of States in the Union at that time.) UNITED STATES OF AMERICA. ONE DOLLAR. Plain edge. Only eighteen specimens minted. **Brilliant proof.** Extremely rare and valuable. This specimen is from the great Atwater Collection at $355.00.

33 **1836 Second type.** Same as last, but with C. GOBRECHT on base. 1,000 specimens minted. **Beautiful brilliant proof** with wire edge. A gem coin. Catalogs at $150.00. This coin has more than trebled in value in the past few years and is certainly destined to constantly increase in price.

34 **1838** Same type as the 1836 with the exception that there are thirteen stars on obverse and no stars on reverse, and the edge is milled. **Brilliant proof.** Very rare and valuable. Catalogs $500.00.

35 **1839** Same type as the 1838. Stars on obverse and plain field on reverse. Milled edge. Iridescent proof. Just the very slightest touch of cabinet friction. Rare and valuable. Catalogs $250.00.

36 1840 Obverse same type as the Gobrecht Dollars. Liberty seated, but of a different die; the shield is smaller. Reverse, standing eagle; legend, value, ONE DOL below. Milled edge. Uncirculated with frosty mint surface. Just the very slightest touch of cabinet friction. A beautiful specimen. Very scarce and in much demand. Record over $20.00.

Lot No.

37 1841 About uncirculated with considerable mint luster. Scarce date in very scarce condition.

38 1842 Very fine; very light hair lines on obverse.

39 1843 Uncirculated with mint luster, but slight evidence of having been handled with other coins. Very scarce so choice. Listed at $12.50.

40 1844 Strictly very fine. Light, hardly noticeable scratch on obverse and in field on reverse. The coin is much better than "it sounds." Catalogs $10.00.

41 1845 Extremely fine with considerable frosty mint surface. Scarce so choice.

42 1846 Very fine, strictly so; bold impression.

43 1847 Fine, strictly so.

44 1848 Extremely fine, nearly uncirculated; iridescent surface.

45 1849 Semi-proof. This was originally purchased by Mr. Neil as a brilliant proof coin. It has almost every appearance of a proof, but it was not originally struck as such and has slight evidence of cabinet friction. Record for a proof specimen over $150.00.

46 1850 Another semi-proof with light nicks. Originally purchased as a brilliant proof. While this is not a perfect proof, still quite rare so choice. Record for a perfect proof, $150.00.

47 **1851 Perfect brilliant proof** with wire edge. Sharp. Seldom equalled in condition. Extremely rare and valuable. Steadily advancing in value. Record $275.00.

48 **1852** Uncirculated, apparently struck as a proof. Slight evidence of cabinet friction. From the famous Atwater Collection at $235.00.

49 1853 Semi-proof, brilliant. Apparently was struck as a proof. Square borders with partly wire edge. From the great Roach Collection sold by me in 1944. This Dollar in proof condition catalogs at $75.00.

50 1854 **Perfect brilliant proof** with wire edge. A real gem. Catalogs at $100.00 and certainly worth it.

51 1855 **Perfect brilliant proof.** Very rare in this remarkable condition. Catalogs $100.00, but a specimen in my Sale of the Roe Collection in 1945, brought $122.50.

52 1856 **Perfect brilliant proof.** Latest record $75.00.

53 1857 Brilliant semi-proof. Light short hair lines on obverse. Rare condition. Catalogs at $65.00 in proof.

Lot No.

54 **1858 Perfect brilliant proof.** Only about eighty specimens minted. Very rare and in much demand and value steadily increasing. It hasn't been but a few years ago when this Dollar was bringing about $35.00 or $40.00. It now catalogs at $175.00 but its latest record is $185.00 and is being priced at retail at $200.00.

55 1859 **Brilliant iridescent light purple proof.** Catalogs $35.00 and brings full catalog and more.

56 1860 **Brilliant proof.** Rare in much demand. Catalogs $30.00 and brings that and more.

57 1861 **Perfect brilliant proof gem.** Rare date in rare condition. Catalogs $35.00.

58 1862 **Brilliant proof.** Catalogs $25.00. Very scarce.

59 1863 Very scarce date. **Brilliant proof** but light hair lines on obverse. Catalogs $25.00. This coin cataloged for $7.50 only three or four years ago.

60 1864 **Brilliant proof.** Few minute hair lines not affecting the appearance or value of this scarce coin. Catalogs $25.00.

61 1865 **Perfect brilliant proof;** bold impression. Probably an early striking. Catalogs $25.00.

62 1866 First year with motto on scroll above eagle. **Perfect brilliant proof.** Catalogs $25.00 but has a higher auction record.

63 1867 **Brilliant proof** with wire edge. From my Sale of the Cowell Collection of Denver in 1923. Auction record of $25.00.

64 1868 **Brilliant proof;** wire edge. Auction record $16.00.

65 1869 **Brilliant proof,** but slight abrasion on obverse. Record $18.50.

66 1870 **Brilliant proof** with wire edge. Record above its catalog price of $15.00.

67 1871 **Perfect brilliant proof** with wire edge. From my Sale of the Marcusson Collection in 1925, 28 years ago. This is evidence of the scarcity of these early proof Dollars. Only a limited number were struck to begin with, as they were only minted on orders from collectors. We can readily realize the few collectors in those days. These early proof Dollars are only available when fine collections appear on the market.

68 1872 **Sharp brilliant proof.** Die hair lines on right obverse only visible when the coin is held at a certain angle. From my Sale of the Cowell Collection in 1923. Record over $18.00.

69 1873 Last year of the Liberty seated type Dollar. **Brilliant proof.** Very scarce and in demand. Last record $21.00.

Lot No.

70 1878 First year of the Morgan type Dollar. Variety with eight feathers in eagle's tail. All feathers in arrows are parallel. Large sprig of leaves in talon. First A in AMERICA distant from wing. Seven berries in left and eight in right branch of wreath. **Brilliant proof.** Very scarce and steadily advancing in value. Catalogs $25.00 and brings that.

71 1878 The rare variety with seven feathers in eagle's tail. Top feathers in arrows are slanting, or type of 1879. **Brilliant iridescent proof.** Record near $40.00.

72 1878 The very rare variety with seven feathers in eagle's tail and with top feathers of arrows parallel. Small sprig of leaves in talon. Perfect R in TRUST. Wreath has ten berries in left and seven at right. About uncirculated with frosty mint surface. A tiny hardly noticeable nick, which appears to be a die defect, in left reverse field. Very rare variety.

73 1878 Seven feathers in tail. Imperfect R in TRUST. Perfect letters in UNUM. Very good. Scarce variety.

74 1878 Seven feathers in tail. Letters in UNUM imperfect. Very rare variety. Very good.

75 1879 **Brilliant iridescent proof.** Catalogs $10.00.

76 1880 **Brilliant proof.** Catalogs $10.00.

77 1881 **Brilliant proof,** slightly iridescent surface. Catalogs $10.00.

78 1882 **Brilliant proof.** Record over $10.00.

79 1883 **Brilliant proof.** Record over $10.00.

80 1884 **Brilliant proof.** Record over $10.00.

81 1885 **Brilliant proof.** Record $10.50.

82 1886 **Brilliant proof.** Catalogs $12.50.

83 1887 **Brilliant proof.** Scarce date. Catalogs $12.50.

84 1888 **Brilliant proof.** Record $12.00.

85 1889 **Brilliant proof.** Record over $10.00.

86 1890 **Brilliant proof.** Scarce. Record over $10.00.

87 1891 **Brilliant proof.** Record $12.00.

88 1892 **Brilliant proof gem.** Record over $11.00.

90 1894 **Brilliant proof.** Scarce. Record $12.50.

91 **1895 Perfect brilliant proof.** Rare and in great demand. Steadily advancing in value. Now catalogs at $50.00 and brings just about this much. This coin has more than trebled in value in the past four or five years.

92 1896 **Brilliant proof.** Scarce. Catalogs at $12.50 and usually brings that much.

93 1897 **Brilliant proof.** Record over $17.00.

Lot No.

94 1898 **Brilliant proof.** Scarce date. Record $11.50.

95 1899 **Perfect brilliant proof.** Catalogs $12.50.

96 1900 **Perfect brilliant proof.** Catalogs..$10.00.

97 1901 A new reverse, the most noticeable difference being a much wider space between eagle's neck and wing at right. **Brilliant proof.** Record $11.00.

98 1902 **Brilliant iridescent proof.** Very scarce. Catalogs $12.50.

99 1903 **Brilliant proof.** Very scarce. This proof is perfect, while one not quite perfect in my Sale of the Atwater Collection, brought $21.00. Only five years ago this coin was selling at $8.50. I still believe that the present price level for these beautiful proof Dollars is still in its infancy.

100 1904 Last year of the Dollar minted until 1921. **Brilliant proof.** Scarce and in demand. Record $21.00.

101 1921 Morgan type, but of a different die than of 1904. The most noticeable difference being in the grain spurs under I in PLURIBUS. On reverse the top arrow feather is again parallel and the wing tips are much farther from border. **Brilliant proof.** Just the faintest hair line on obverse, hardly noticeable. Very rare. Catalogs $50.00. This coin was obtained by Mr. Neil direct from the U. S. Mint in 1921 and has been in his collection ever since, 26 years.

UNITED STATES SILVER DOLLARS of the SAN FRANCISCO MINT COMPLETE Collection Including the Great Rarity, 1870 S.

The San Francisco Mint was established in 1854, but Silver Dollars were first coined in 1859. It was the only year in which they were coined until 1870. While the 1870 S Mint Dollar is not mentioned in the report of the U. S. Treasurer, a few specimens are known to exist. After 1870 Silver Dollars were minted at this Mint in 1872, and then from 1878 to 1904, inclusive. When coinage of Dollars was resumed in 1921, they were also minted at the San Francisco Mint from this year, 1921, to 1928, and in 1934 and 1935.

201 1859 First year of the Silver Dollar struck at the San Francisco Mint. Nearly uncirculated; slight evidence of cabinet friction but with considerable original mint luster. Catalogs $22.50 in uncirculated.

Lot No. 202

The EXCEEDINGLY RARE 1870 SAN FRANCISCO MINT DOLLAR

1870 S. Mint Dollar. The mint letter S is small and high, rather close to feather in arrow. This specimen of this great rarity is, as far as I know, the finest known. I classify it as strictly extremely fine. What evidence of circulation the coin shows is only on the highest portions, more due to cabinet friction than to actual circulation. It has a bold impression, perfectly centered. The rarity of this Dollar is on a par with ANY U. S. Silver Dollar barring none, not even the 1804. While during my long numismatic career I have handled two specimens at private sale, of all the great Collections that have passed through my hands at auction, nearly a half century, I have never had a single specimen to offer at auction. This great coin was purchased by Mr. Neil as an almost uncirculated with much original mint luster. Record for a specimen not as choice, which sold at auction in January, 1946, is $1,650.00. This specimen, in my opinion, should certainly reach the $2,000,00 mark if not surpass it.

Lot No

209 1879 Type of 1878 with broken r in "trust." Good. Rare. The following memo accompanies the above two coins: "Howard Newcomb told me that these two varieties were the only pieces he had ever seen of this type. An 1804 Dollar is just as easy to find as these pieces."

245 1894 Small low S. Fine.

UNITED STATES SILVER TRADE DOLLARS
COMPLETE of All Mints, Excepting Only 1885

The Trade Dollars are the "heaviest" Dollars issued. They weigh 420 grains while the regular Dollar weighs 412½ grains. These Trade Dollars were coined for the purpose of circulation in the Far East to compete with the Mexican and Spanish Dollars then in circulation there. The venture was not, however, successful, so the coinage was discontinued in 1885 but was discontinued for general circulation in 1878 and re-called or demonitized in 1887. Coinage began in 1873 and discontinued in 1885.

The EXCESSIVELY RARE TRADE DOLLAR of 1884

1884 United States Silver Trade Dollar. Perfect brilliant proof. This great rarity is from the famous Atwater Collection, where it was cataloged as follows:

"A perfect brilliant proof, just as perfect as the day it was minted. Raised borders. Only ten specimens said to have been struck. Excessively rare and of great value. Price steadily advancing. In 1941, in my Sale of the great Dunham Collection, a similar specimen brought $315.00. In my sale of the Olsen Collection in November of 1944, a similar specimen brought $650.00. And in my Sale of the Roe Collection, June, 1945, it brought $665.00. In point of actual rarity this beautiful coin is as rare as **any** United States Silver Dollar."

This specimen brought $800.00 in my Atwater Sale, and Mr. Neil was willing to pay much more for it in order to obtain it.

UNITED STATES SILVER HALF-DOLLARS

The U. S. Silver Half-Dollars were first minted in 1794. They were minted at five of our Mints: Philadelphia, New Orleans, Carson City, San Francisco, and Denver. This is one of the most popular series of our coinage, presenting almost an unbroken line of dates, from 1794, with many interesting varieties. The collection here represented is one of the most extensive ever offered. And with only one or two exceptions it is complete with all Mints and all dates.

UNITED STATES SILVER HALF-DOLLARS of the PHILADELPHIA MINT

The coinage of Half-Dollars at this Mint began in 1794 and minted continuously excepting only in the years of 1798, 1799, 1800 and 1816. None were minted in 1922, 1923 to 1933.

The Rare Milled Edge 1836 Half-Dollar in Brilliant Proof!

1836 The new adopted design with milled edge, slightly smaller bust. The reverse with motto, and the value, 50 CENTS. **Perfect brilliant proof.** Just a slight, hardly noticeable, short hair line on left obverse. This is only noticeable when the coin is held at a certain angle. Bold impression with raised borders. Excessively rare in this remarkable condition. I doubt if more than four or five specimens are known. The coin catalogs in only uncirculated at $40.00. An early proof should, therefore, be worth at least five to ten times as much. From the famous Roach Collection.

469 1837 7 in date is partly re-cut. Light die break through stars in date. From the collection sold in January, 1946, and described as the "World's Greatest." Near uncirculated with cabinet friction. Originally purchased as uncirculated.

470 1837 H. 1. Perfect dies. Date closer to bust. Uncirculated with iridescent surface. A beautiful specimen. Purchased from William Hesslein in 1923. The greater majority of the coins in Mr. Neil's Collection have been in his possession from twenty to thirty years.

Lot No.

472 1838 Not in Hazeltine. Base of last 8 double-cut. About uncirculated with semi-proof surface. Rare variety.

473 1839 Bust type as last. Last year of this type. Uncirculated with slight cabinet friction. Very scarce. Record over $8.00.

474 1839 New type, Liberty seated. Variety without drapery at elbow. **Brilliant proof** with partly wire edge. Last hair lines on reverse, which on close examination, appear to be file marks in the die and these are visible only if the coin is held at a certain angle. Excessively rare in this remarkable condition. In my humble opinion the coin is worth $75.00.

475 1839 Type as last, but variety with drapery at elbow. Uncirculated with full mint luster. Rare so choice.

476 1840 Perfect date. About uncirculated with semi-proof surface. Lightly nicked on lower left obverse. From the memo of Mr. Neil he apparently purchased this coin as a proof.

477 1840 Type as last, but the very rare variety with the date partly double-struck or re-cut. Uncirculated. Catalogs at $20.00 but just try and get an uncirculated specimen at this price at private sale.

478 1841 Broken die through date. Uncirculated, iridescent surface. Rare in this condition.

479 1842 Small date. From the Wellinger Collection sold by me in 1923, where I stated in the catalog that Mr. Wellinger bought this coin as a proof a number of years prior to 1923, at $11.25, (which was a high price at that time). But I also stated that I doubted whether this coin was a real proof, although it has a proof surface. It has an even iridescent brilliant proof surface, but I still will not catelog this coin as an original proof, but it is almost equal to one. But at any rate, it is a beautiful coin and very rare so choice.

UNITED STATES HALF-DOLLARS of the NEW ORLEANS MINT

The coinage of Half-Dollars at the New Orleans Mint began in the first year of the establishment of this Mint, 1838. The Half-Dollars were coined at this Mint from 1838 to 1861, when the Mint was seized by the Confederacy, the coinage of all coins was discontinued at this Mint. The coinage of Half-Dollars was not resumed until 1892. They were coined continuously until 1909, in which year all coinage was discontinued at the New Orleans Mint.

Lot No. 580

The EXCEEDINGLY RARE 1838 NEW ORLEANS MINT HALF-DOLLAR

1838 O Mint. Mint letter O (for New Orleans) between bust and date. **Proof.** The surface is an even brilliant medium purple surface; unusually bold impression with slightly raised borders. This specimen is from my Sale of the Maurice A. Ryan Collection. Mr. Ryan secured it from the famous Colonel Green Collection, who obtained it through me from the celebrated Waldo Newcomer Collection of Baltimore. In my description of this great rarity in my catalog of the Ryan Collection, I stated that this specimen is very likely from the James B. Wilson Collection which was sold in October, 1908. Prior to that time not a single specimen of this rarity was offered for more than a quarter of a century. When Mr. Beistle published his splendid work of the Half-Dollars in 1929, he stated that only three specimens of this coin were known. However, I believe that today six or seven are known in collections. Even with this number of specimens known, it is certainly not only the very rarest of all U. S. silver Half-Dollars, but one of the rarest of all United States silver coins. A similar specimen in my Sale of the Atwater Collection last year, brought $2,200.00, which I consider a very nominal price compared with the prices of other coins of far lesser rarity than the 1838 O Mint Half-Dollar. This specimen should certainly make a new record. A memo enclosed with this coin when I received it from Mr. Neil, states that this coin is from the Colonel Green Collection, that it is considered the best known and that he paid the late Henry Chapman $2,000.00 for it in 1928. Mr. Neil values the coin at $3,000.00 which I think is conservative.

Lot No.

581 1839 Same type as the 1838, O between date and bust. Variety with broken die on obverse connecting all stars and date. Strictly very fine. Scarce. Lists at $10.00.

585 1842 Large date and large O. Nearly uncirculated with considerable luster. Scarce. Catalogs $5.00.

586 1843 O directly over F. Uncirculated with mint luster. Scarce so choice. When this coin cataloged at $3.50, it sold for $5.25. It now catalogs at $5.00 and should bring considerably more in this choice condition.

608 1892 First year of the Morgan type and first Half-Dollar struck at the New Orleans Mint since 1861. Uncirculated. Very scarce. The values of these branch mint Half-Dollars in choice condition are steadily advancing. 609 1893 Brilliant uncirculated with full mint luster. Very light die breaks connecting part of legend. Now catalogs at $15.00 but seldom obtainable at this price.

610 1894 Uncirculated with mint luster, but obverse shows very slightest touch of handling. Raised borders. Quite scarce. Catalogs $15.00 and retails up to $25.00.

611 1895 Just about uncirculated with frosty mint surface. Rare. Catalogs $17.50 but usually sells for more.

612 1896 Uncirculated. Very short light scratch on cheek. Light frosty mint surface. This specimen is very rare; far more so than its catalog listing of $30.00 would signify. This specimen is from the Ryan Collection where it was purchased by Mr. Neil at $30.00 at a time when this coin cataloged for only $10.00. Seldom offered.

613 1897 Uncirculated, sharp, with light iridescent surface. Rare. From the Ryan Collection at $31.00. The coin at that time, in 1945, cataloged for only $12.50 yet it brought $31.00. It now catalogs at $30.00 and should bring a correspondingly higher price.

UNITED STATES SILVER COMMEMORATIVE HALF-DOLLARS

This series of beautiful and historical coins forms one of the most interesting series of our entire silver coinage. Each coin represents an important historical event in the history of our country. Each and every issue of an entirely different and individual design appropriate for the occasion or event for which it was minted. While it is true that for a time, especially in 1936, the mintage of these coins was a little overdone, but collectors are now again appreciating the true beauty and interest of this series.

A complete list of these coins with beautiful illustrations of each and every design, giving the number of specimens struck of each issue, and their present market value, is listed in the Standard Catalog of 1947, copies of which I can now supply at its standard price of $3.50. Of course, the Standard Catalog lists every coin of every mint issued by the United States, with illustrations and prices. It is indeed an indispensible book to every collector. It is, in fact, a library of American numismatics in one volume.

All Of The Following Coins Are In Uncirculated Mint Condition Unless Otherwise Described. The Prices in Parenthesis Indicate The Catalog Values.

(Mr. Neil secured most of these Half-Dollars direct from the Commissions when they were first issued. They are all gems.)

COMPLETE COLLECTION of U. S. COMMEMORATIVE HALF-DOLLARS, 1892-1939

Lot No.

868 U. S. Commemorative Half-Dollars, complete collection from 1892 to 1939 inclusive, representing each and every issue and each and every specimen from the Branch Mints, including, of course, all the rarities and all in perfect mint condition. A total of 111 coins. Complete sets of these beautiful coins are now very difficult to obtain as their value as a set is constantly advancing. I recall only three years ago when these sets were selling for $300.00 per set and today a set catalogs nearly $900.00. This set is arranged in five large holders in handsome album. Brand new. Please make your bid for this set by the set and not by the piece. The album and holders sell for $11.80.

NOTE: In my catalog of the Geiss Collection I stated that "there is some talk of the coinage (of commemoratives) being resumed, but so far, nothing definite has been done." Since that statement by me, a commemorative Half-Dollar was issued for Iowa and another for Booker T. Washington. The Iowa coin seems to have been very much restricted in its distribution and its initial cost was $3.00 per coin and they retail at $3.50. The Booker T. Washington Half-Dollars were struck at Philadelphia, San Francisco and Denver and the set of three coins retails at $4.00.

877 1807 Browning No. 1. Very fine. Scarce date in very scarce condition.

878 1807 Browning 2-A. Slightly different die. Strictly very fine with some luster. Rare.

879 1815 Similar to Browning No. 1, but the 5 is trifle smaller. Letter L incused above head. Extremely fine, sharp. Scarce. Catalogs $35.00 in uncirculated.

880 1815 Browning No. 1. Uncirculated, sharp, with frosty mint surface. Browning states it is very rare in choice condition. These early Quarter-Dollars in choice condition are far underpriced. This specimen cost well over $20.00 several years ago.

881 1818 Perfect date. Variety with die break connecting three stars on right and almost extending entirely above head. Uncirculated, frosty mint surface. Rare so choice. Catalogs $12.50, but retails for more.

882 1818 Type as last, but with die breaks on reverse. Beautiful uncirculated specimen, sharp with every star filled. Rare so choice.

Lot No. 892

The Excessively Rare Quarter-Dollar of 1823

1823 Quarter-Dollar. The date is struck over 1822, as all are. Strictly fine. The memo from Mr. Neil, accompanying this coin, states that this is the "second finest known" 1823 Quarter-Dollar. It is well and evenly struck, perfectly centered, and free from any nicks or dents. Evidence of circulation is evenly distributed. Until several years ago, when a couple of uncirculated specimens were discovered in Europe, this specimen was considered the best known. The Mint records report that 117,800 specimens of this Quarter were coined. But, as Mr. Browning states in his excellent work on the subject, this is one of the two rarest dates in the whole Quarter-Dollar series. Very few collections have them. Undoubtedly the greater part of this coinage was melted up and converted into other denominations. Excessively rare and valuable. A somewhat better specimen in my Sale of the Atwater Collection last June brought $750.00.

Lot No. 893

Another Specimen of the 1823 Quarter-Dollar

1823 over '22. Same variety as last, as there is only one die variety of this rare Quarter-Dollar. This duplicate is not quite as choice as the preceding lot. This coin, however, is from the famous Dunham Collection sold by me in 1941. Its condition is good to very good. In the fifty years of collecting, Mr. Dunham was unable to obtain a better specimen. Worthy of a home in any collection. Probably not more than twelve to fifteen specimens known in all. The lowest price listed for this coin in the Standard Catalog is $450.00.

Lot No.

894 1824 Fine to very fine. Very scarce. Catalogs at $10.00 in only fine.

895 1825 over '23. Browning No. 2. Uncirculated, sharp, with every star filled and full mint luster. Rare so choice.

896 1825 over '24. Browning No. 3. Uncirculated, unusually sharp with raised borders. Beautiful light iridescent frosty mint surface. Truly a gem, and as such, rare and valuable.

Lot No. 897

The EXCEEDINGLY RARE QUARTER-DOLLAR of 1827!

1827 Original! Brilliant proof. Of exceeding rarity. By far the very rarest Quarter-Dollar minted and one of the very rarest of all United States silver coins. The variety of this rarity is easily recognized by the fact that it is struck from perfect dies; the 2 in date is with curled base, and the figure 7 is struck over 3. According to the mint report, only 4,000 specimens were minted but I doubt if more than five or six specimens are known to exist. I also question the correctness of the mint report in this instance, for the reason that of the very few specimens known of this great rarity, all, as far as I know, are in proof condition. There are none, however, more perfect or more beautiful than the specimen here offered. This is only the second specimen that has ever passed through my hands, either at auction or at private sale. Even the great Atwater Collection did not have a specimen. In fact I do not recall ever before having this coin in one of my Sales. This specimen comes from the collection sold in January of 1946 in the collection described as the "World's Greatest." Mr. Neil paid $2,400.00 and now values it at $3,500.00, which I think is a conservative estimate considering its great rarity and beautiful state of preservation. There is no U. S. silver coin of any series more rare than the 1827 Original Quarter-Dollar. (The memorandum accompanying this coin states that this specimen is one of the best known, with a record of over $3,000.00.)

Lot No. 898
The Excessively Rare Quarter-Dollar of 1827, Second Type

1827 Second type of this excessively rare Quarter-Dollar. The reverse is with square-base 2 in 25 C. A faint die break from border through right part of U to right wing of eagle. Browning No. 2. An early impression from these dies. **Entirely free from rust marks.** Unusually bold and sharp impression with raised borders and partly wire edge. A pin-point die depression; looks like a nick but it isn't; on obverse to left of chin. As beautiful a specimen of this rarity as exists. The most perfect specimen of this variety 1827 Quarter-Dollar I have ever seen. **Brilliant proof.** A specimen in my Sale of the great Atwater Collection brought $700.00, but it was covered with rust marks, while this specimen is absolutely perfect. Valued by Mr. Neil at $1,000.00 and certainly worth it.

899 1828 Perfect dies. Reverse, same as that of the 1827. Brilliant uncirculated with semi-proof surface, almost equal to a brilliant proof. Few tiny spots on obverse, hardly noticeable. Rare so choice. High auction record for equal specimen.

Lot No. 929

1853 Type of 1852, **without arrowheads at sides of date and no rays back of eagle.** Uncirculated with even frosty mint surface. As I stated in my catalog of the Atwater Sale that I have always maintained that this very rare coin was undervalued, my theory has been sustained by the fact that just a few years ago this coin was cataloged at only $35.00. Last year, 1946, it was cataloged at $75.00, but the specimen in the Atwater Sale brought $105.00. It now catalogs at $100.00. I feel that it should bring a correspondingly higher price.

UNITED STATES QUARTER-DOLLARS of the SAN FRANCISCO MINT

The following are the years in which Quarter-Dollars were not minted at the San Francisco Mint: 1863, 1870, 1879 to 1887 inclusive; 1889 and 1890; 1904, 1906, 1910, 1916, 1921 and 1922, 1925, 1931 and 1934.

1070 1855 First year of issue. Strictly fine to very fine. Far above the average found of these Quarter-Dollars. Rare in any condition. An uncirculated specimen in my Atwater Sale brought $115.00.

1071 1856 Just a shade from uncirculated. Highest portions show slight cabinet friction. It retains much of its original mint luster and was originally purchased as uncirculated. One of the best known specimens of this scarce coin. Catalogs at $60.00 in uncirculated.

1072 1857 Very fine, but several small nicks on obverse. Rare in any condition.

1073 1858 Fine, strictly so. Variety with large S over RD. Record $36.00 for just a somewhat better specimen.

1074 1859 Good, but the obverse is only very fair. Quite rare.

1075 1860 S high over and to right of R. Strictly fine; can be classed as very fine for this coin. From the great Atwater Collection at $12.25. Catalogs up to $50.00 in uncirculated.

1076 1861 Fine. Very scarce.

Lot No.

1077 1862 Uncirculated with frosty mint surface. Slight cabinet friction and slight imperfection in the die in left obverse field. Far better than usually found. Catalogs $40.00 in uncirculated. This specimen was purchased by Mr. Neil as a strictly uncirculated coin.

1078 1864 Strictly very good. Scarce.

1079 1865 Strictly fine.

1080 1866 With motto, as all are. Microscopic S over right portion of R. Uncirculated, perfect, with mint luster. From the Atwater Collection at $52.50. Only when great collections come on the market are these rare branch mint coins available. The pedigree of these coins add, or certainly should add, considerable to their value.

1081 1867 About fine. Very scarce. Catalogs $7.50 in fine.

1082 1868 Uncirculated with frosty mint surface. Small S directly over R. Catalogs at $30.00 and has an auction record of $37.50 when this coin was cataloged at only $20.00.

1083 1869 Fine. A very difficult coin to find in this condition. Very scarce. Catalogs $7.50 and worth more.

1048 1871 Strictly very fine. Small mint letter S directly over R. Rare coin in rare condition. High auction record.

1085 1872 Small S high and central over R. Uncirculated with frosty mint surface. The Atwater specimen at $52.50. At that time the coin cataloged for only $35.00. It now catalogs for $50.00, so it should bring a correspondingly higher price. Most of these coins which Mr. Neil purchased at the Atwater Sale have the original Atwater envelopes to them which should add considerable to their value.

1086 1873 With arrowheads. Microscopic S high over and slightly to right of R. Fine.

1087 1874 Extremely fine, frosty mint surface. Originally purchased as uncirculated. Catalogs $15.00.

1088 **1875** Brilliant uncirculated specimen. From the Atwater Collection. Here is undoubtedly a "sleeper." Some of the largest collections offered in recent years, excepting the great Atwater Collection, did not have a specimen, at least in this remarkable condition. In the Atwater Sale this coin brought $9.25 when it cataloged at only $2.00 and I had twenty-seven bids for it. As I will undoubtedly receive many inquiries as to what I think this coin is worth, the only thing I can say is if I had one in stock my price would be not less than $25.00.

1089 1876 Microscopic S over and slightly to right of R. Uncirculated with mint luster.

1090 1877 Medium S over right portion of R. Semi-proof.

Lot No. 1091

The Extremely Rare 1878 S Mint Quarter-Dollar. Gem!

1878 S Mint Quarter-Dollar. Small slightly slanting S over and to right of R. Beautiful perfect uncirculated specimen. Sharp with every star bold and full brilliant mint luster. Just about as perfect as the day it was minted. Extremely rare, especially in this remarkably choice state of preservation. In great demand and value steadily advancing. A coin which has tremendous possibilities from an investment point of view. A similar specimen in my Sale of the Atwater Collection held in June, 1946, brought $167.50. At that time the coin cataloged at $150.00. Today it catalogs for $175.00. It has a record of $205.00 and I feel that this beautiful specimen is certainly worthy of its highest record.

1092 1888 (No Quarter-Dollars minted at this Mint from 1879 to 1887, inclusive.) Uncirculated with mint luster. From the Roach Collection.

1093 1891 Uncirculated with mint luster. Not a rarity, but certainly very scarce so choice.

1094 1892 Uncirculated with semi-proof surface; just the slightest touch of cabinet friction. Record over $17.00 when this coin cataloged at $12.50.

1095 1893 Uncirculated with frosty mint surface. Very scarce.

1096 1894 Semi-proof, but slight evidence of cabinet friction on obverse. High auction record.

1097 1895 Nearly uncirculated, frosty mint surface. Catalogs $8.50.

1098 **1896** Uncirculated with full mint luster. Tiny nicks on head; hardly noticeable. In fact I did not notice them when I cataloged this same coin in the Atwater Collection, Lot 856, where this coin brought $122.50 at a time when it cataloged for only $50.00. It now catalogs at $100.00 and should bring a correspondingly higher price. I think this is another "sleeper" and will rank with our rarest Branch Mint Quarter-Dollars in the near future.

1099 1897 Uncirculated, bright mint luster. Another rarity. Record over $31.00 when this coin cataloged for $20.00. It now catalogs at $30.00 and certainly worth more.

1100 1898 Uncirculated, frosty mint surface. Record of $21.00 when the coin cataloged at $15.00. It now catalogs at $20.00.

1101 1899 Mint letter S high over R D. Uncirculated with frosty mint surface. Record $20.00 when the coin cataloged at $15.00. It now catalogs at $20.00.

1102 1900 Slanting S low over R. D. Uncirculated with semi-proof surface. The cheek shows slight cabinet friction. Very scarce. Catalogs $15.00 and has higher auction record.

Lot No. 1103
The Extremely Rare S Mint Quarter-Dollar of 1901

1901 S Mint Quarter-Dollar. About uncirculated with mint luster with just the faintest touch of cabinet friction. Sharp bold impression. Perfectly centered. Truly a great rarity. The rarity of this coin was just recognized in the past few years. Up to that time it was selling at from $5.00 to $7.50. But in my Sale of the great Dunham Collection in 1941 I called attention to the rarity of this coin which was then cataloged at $35.00. It brought in the Dunham Sale $105.00.

In 1945 a specimen of this coin, which was then cataloged at $150.00, brought $295.00 at auction. In my sale of the Atwater Collection, a specimen brought $330.00. It then cataloged at $250.00. This coin now catalogs at $300.00 and should bring a correspondingly higher price.

1110 1911 (None minted in 1910.) Uncirculated with full mint surface. Not in the Atwater Collection. Far more scarce than its catalog price of $8.50 would signify.

1112 **1913** Only very good, but a real rarity. Second rarest Quarter-Dollar of this Mint. Catalogs $15.00 fine and $75.00 uncirculated.

The EXCESSIVELY RARE 1876 CARSON CITY MINT TWENTY-CENT PIECE

1876 Twenty-Cents, C C Mint. Uncirculated with mint luster; the reverse is with slight semi-proof surface. Mr. Neil purchased this coin at my Sale of the William Knapp Collection in 1945. It then brought $1,525.00. Since then a specimen in my Sale of the Atwater Collection brought $1,625.00. In my description of the coin in the Knapp catalog I stated that this is one of the rarest of all U. S. silver coins, that it is in the same class of rarity as the 1823 and 1827 Quarter-Dollars. I still am of the same opinion. Probably not more than ten specimens known! Prior to my Sale of the Knapp Collection, the former record for this coin was $750.00. I stated in the Knapp catalog, that considering the great rarity of this coin, it should bring well into the four-figure mark. It brought, as stated before, $1,525.00, and a little later a specimen sold for $1,625.00. It would not surprise me to see this specimen reach or pass the $2,000.00 mark. This is another rarity that will pay untold dividends in pleasure and profit to the fortunate owner.

1195 1877 Perfect brilliant proof. Only 510 specimens minted. Rare and in great demand. Steadily advancing in value. It hasn't been so very long when about $7.50 was the standard price for this coin, but in my sale of the Atwater Collection, last year, when this coin cataloged at $30.00, it brought $52.50. Today it catalogs at $40.00.

1196 1878 Last year of issue. Perfect brilliant proof with wire edge. Only 600 specimens coined. Catalogs $30.00 but has a higher record which was made when this coin cataloged for much less.

UNITED STATES DIMES of the PHILADELPHIA MINT A COMPLETE COLLECTION!

An uncirculated specimen in my Atwater Sale brought $95.00.

1208 **1804** Variety with fourteen stars on reverse. Light die break on obverse from chin to first lower star at right. Extremely fine, nearly uncirculated. Rare in any condition, but extremely rare when so choice. Just about equal to the Atwater specimen which brought $105.00.

1209 1804 Variety with thirteen stars on reverse. A fine specimen, but the obverse is considerably nicked, but all letters and figures show plainly and it is still an acceptable specimen of this rarity.

1210 1805 Extremely fine, nearly uncirculated. Two light, hardly noticeable, nicks on obverse. Sharp impression. Variety with four berries on olive branch. Scarce so choice. Catalogs $25.00 in uncirculated.

1374 1893 About uncirculated with frosty mint surface. Another "sleeper." Catalogs at $4.50 but far more rare than this price would signify.

1375 1894 Practically uncirculated with frosty mint surface. Catalogs at $15.00. But when this coin cataloged at $8.50, just last year, it brought $17.75 in my Atwater Sale. Should bring a correspondingly higher price.

Last year this coin cataloged at $27.50, but it brought $47.50 in my Sale of the Atwater Collection. This year it catalogs at $50.00. And I still think the present catalog price is in its infancy as regards this rarity.

1377 1896 Uncirculated, frosty mint surface. It cataloged at $7.50 last year and it brought $10.50 at auction. It now catalogs at $10.00 and I believe it is soon destined to become a $25.00 coin at least.

COMPLETE SET of CARSON CITY MINT DIMES

Dimes were minted at the Carson City Mint from 1871 to 1878 inclusive. Most of the Dimes of this Mint are rare, and all are scarce.

1391 **1871** First year of issue. **A beautiful proof specimen,** wire edge on reverse. Extremely rare in any condition, but excessively rare in such beautiful state of preservation. A note accompanying this coin from Mr. Neil states that "Howard Newcomb told me back in 1925 that this date and Mint is the second rarest Dime." In the great Atwater Collection, the 1871 CC Dime was only good, and it brought $46.00. It is difficult to place a value on this gem rarity. Mr. Neil values it at $500.00. While I feel that the rarity and condition of this coin justifies such a valuation, collectors are not yet aware nor appreciate the rarity of this coin. But I do feel that this coin is worth well in the three-figure mark.

1392 **1872** Fine to very fine. Another real rarity. The Atwater specimen was only very good and it brought $62.50. This specimen worth much more.

1393 **1873** With arrowheads at sides of date. Strictly fine. The obverse can be classed as very fine. **Excessively rare.** The Atwater specimen was only good. This identical coin cost Mr. Neil $205.00 in 1945. Since then a specimen, somewhat better condition, sold for $375.00. Some day this is sure to be a $500.00 coin.

1394 **1874** Very good. Very rare. The Atwater specimen brought $62.00 when it cataloged for only $35.00. It now catalogs for $50.00 and should bring a correspondingly higher price. A better specimeen has a record of $200.00. This specimen is from the Atwater Collection and the original envelope accompanies the coin.

1395 1875 CC within wreath. Perfect dies. About uncirculated with frosty mint surface.

1396 1875 CC within wreath. Die break connecting date and legend. Nearly uncirculated. Rare variety.

1397 1875 Mint mark CC below wreath. Uncirculated, frosty mint surface.

1398 1876 Beautiful brilliant semi-proof with wire edge. Record over $5.00.

Lot No.

1399 1877 About uncirculated with frosty mint surface.

1400 1878 Last year of issue. Uncirculated with frosty mint surface. Rare. Catalogs $15.00 and usually brings more than its listed price.

UNITED STATES DIMES of the SAN FRANCISCO MINT COMPLETE Collection Including the Great Rarity, 1894 S.

The coinage of Dimes at the San Francisco Mint began in 1856. They were minted continuously with the exception of the following years in which none were minted: 1857, 1878 to 1883 inclusive; 1921, 1922, 1932, 1933 and 1934. The 1894 is, of course, the rarest, only twenty-four specimens having been minted, of which number only about five specimens are known to exist today.

1401 1856 First year of issue. Strictly fine. Rare. Catalogs $25.00.

1402 1858 Very good. Very scarce. (None minted in 1857.) Catalogs $10.00 fine.

1403 1859 Fine to very fine. Very scarce. Record $11.50 for an equal specimen.

1404 1860 Uncirculated; slightest cabinet friction. With full mint luster. Very scarce, especially so choice. Catalogs $12.50, but has much higher auction record.

1405 1861 About uncirculated with frosty mint surface. Rare. Catalogs $20.00. This specimen cost $20.00 several years ago.

1406 1862 Uncirculated, frosty mint surface. Rare so choice. Atwater specimen was only very fine. Cost $20.00 several years ago.

1407 1863 Perfect uncirculated with full mint luster. Lists at $15.00, but seldom obtainable in this beautiful condition.

1408 1864 About fine. Very scarce.

1409 1865 Extremely fine, nearly uncirculated. Tiny, hardly noticeable, nick on reverse edge. An inferior specimen brought $7.50 in the Atwater Sale.

1410 1866 Fine, strictly so. Seldom found better.

1411 1867 Uncirculated with full mint luster. Rare, so choice. Catalogs $15.00, but this coin brought $15.00 when the coin only cataloged for $7.50.

1412 1868 Uncirculated, frosty mint surface. Cost $10.00 a number of years ago.

1413 1869 About fine.

1414 **1870** Very fine. Rare. Seldom found so choice. The Atwater specimen was only about fine. Catalogs $20.00 in fine. This one worth much more.

1415 1871 Uncirculated, frosty mint surface. Rare so choice. Catalogs $25.00 but has a record of over $30.00.

1416 1872 Brilliant semi-proof, almost equal to a perfect proof. Lists at $20.00, but this specimen cost $25.00 several years ago, and in my opinion, is worth more today.

1417 1873 Bright uncirculated with full mint luster. Cost $20.00 several years ago.

Lot No.

1418 1874 Practically uncirculated with frosty mint surface, but was originally purchased as uncirculated. Very rare so choice. The Atwater specimen was only good. Valued at $35.00.

1419 1875 Uncirculated. Variety with Mint letter S within wreath. In this choice condition, far more rare than its catalog price would signify.

1420 1875 Variety with S below wreath. Uncirculated with wire edge. Scarce so choice.

1421 1876 Extremely fine, nearly uncirculated.

1422 1877 About uncirculated with frosty mint surface.

1423 1884 Semi-proof. Just the slightest cabinet friction. Rare so choice. Catalogs $15.00. The Atwater specimen only very good. Really rare so choice.

1424 **1885 Brilliant semi-proof,** nearly equal to a perfect proof. The field on obverse shows slightest cabinet friction. Rare in any condition, but extremely rare in this beautiful state. The Atwater specimen was only very good. Catalogs at $100.00, an advance of $25.00 over last year's price. I doubt if there are as many as six specimens known of this rarity in this beautiful condition.

1425 1886 Brilliant uncirculated. Very scarce so choice. Catalogs $5.00, but it has a higher auction record, made when this coin cataloged for only $3.50.

1426 1887 Uncirculated, iridescent surface.

1427 1888 Uncirculated, iridescent surface.

1428 1889 Brilliant uncirculated. Very scarce so choice.

1429 1890 Semi-proof. Not a rarity, but certainly very scarce in this beautiful condition.

1430 1891 Very small S. Uncirculated, frosty mint surface.

1431 1892 First year of the Liberty head to right. Uncirculated. Rare. Record $15.75 when this coin cataloged for only $10.00. It now catalogs for $15.00.

1432 1893 Uncirculated with light iridescent surface. Catalogs $8.50, but worth more in this choice condition.

The next lot, the 1894 S. Mint Dime, is the only specimen ever offered at auction since its coinage in 1894, more than a half century ago!

Lot No. 1433

MAGNIFICENT BRILLIANT PROOF SPECIMEN of the EXCEEDINGLY RARE DIME, 1894 SAN FRANCISCO MINT

1894 S. Mint Dime. This is by far the rarest Dime minted at any Mint. In fact it is one of the very rarest of all United States Silver coins. For some reason or other, only 24 specimens were minted in all, of which number only about five are known to exist today. The specimen here offered is a beautiful brilliant proof. It is the first specimen that I have ever offered at auction, and only the second specimen that has passed through my hands, either at private sale or at auction in all of my more than forty-five years of numismatic experience, during which time some of the greatest collections of United States coins ever brought together and disposed of passed through my hands. Such great Collections as the Ten Eyck and Atwater did not have a specimen. And even in the earlier years, when such great Collections as the Earle, Mills, and others were offered, they did not include this great rarity. The only other specimen which passed through my hands is the one in the great Newcomer Collection which I handled at private Sale in 1933. Even then, in the midst of the depression, the coin sold for $1,000.00 and I have reason to believe that the specimen here offered is the identical coin. This coin was purchased by Mr. Neil at the sale of a collection which was described as "The World's Greatest." Mr. Neil paid $2,350.00. The cataloger valued the coin at $2,500.00. In point of actual rarity, and considering its beautiful state of preservation, it is even more rare than any 1804 Dollar. This rarity has always been considered one of the greatest of our entire silver series and certainly should prove a most gratifying source of possession to any collector. It is a thrilling coin to look at, and a more thrilling coin to own.

Lot No.

1434 1895 Uncirculated with frosty mint surface. Quite rare. The largest Sales seldom offer this coin in mint condition. Catalogs $17.50 but worth much more.

1435 1896 Uncirculated with frosty iridescent surface. A similar specimen in my Atwater Sale brought $25.50 when this coin cataloged for $17.50. It now catalogs for $25.00 and should bring a correspondingly higher price.

1436 1897 Brilliant semi-proof, just about equal to a perfect proof. Record over $13.00 for a specimen not near as choice.

1437 1898 Uncirculated, frosty mint surface. Slightest cabinet friction. Catalogs $12.50.

1438 1899 Die break through O in OF. Uncirculated, mint luster. Catalogs $10.00 but has higher record.

1439 1900 Uncirculated with full mint luster. Very scarce so choice. Record near $20.00.

1440 1901 Very good, nearly fine. Rare.

1441 1902 Uncirculated with full mint luster. Rare so choice. Much better than the specimen in the Atwater Sale. The reason I mention the Atwater Sale so much is that Mr. Atwater was a discriminating collector and had the means of purchasing the best coins at the highest prices. He was actively interested in forming his collection for a great many years. The fact that he was unable to secure many of these Branch Mint Dimes in uncirculated condition at a time when there were an infinitesimal number of collectors as compared today, is rather strong evidence of the real rarity of these coins.

1442 1903 Uncirculated, frosty mint surface. This coin cataloged at $10.00 last year, and at that time a specimen brought $21.50 in my Sale of the Atwater Collection.

1451 1912 Proofs were not supposed to have been struck at the Branch Mints. This may be an early impression of the die, but whatever it is it can only be classified as a **perfect brilliant proof.** It is just as much a proof as any proof coin in this great Collection, and as such, it is very rare and valuable. Valued by Mr. Neil at $15.00 and I think it is certainly worth it.

Complete Collection of Mercury Denver Mint Dimes

Lot No.

1479 **1916** First and rarest date of issue. Uncirculated with frosty mint surface. Very rare and in great demand. This coin has a very interesting history. Just five years ago, this coin cataloged and was selling at $1.50 each. Mr. Neil purchased this coin of me in 1928 for the huge sum of 20c. In 1945 the catalog value of this coin jumped to $40.00. And now it catalogs for $60.00. I know of a specimen which sold at private sale for $75.00. It would not surprise me in the least to see this coin reach the $100.00 mark in the near future. While I have never advocated the purchase of coins as an investment, in my long years of experience, I have always found that the collectors who purchased nice coins judiciously have reaped a handsome profit when their collection was sold.

1480 1917 Uncirculated with frosty mint surface. Catalogs $6.00 but is much more scarce in choice condition than this present catalog price would signify.

The EXCESSIVELY RARE CONFEDERATE "DIME"

Lot No.

1497 1861 Confederate States of America so-called Dime. Obverse, portrait of Jefferson Davis struck in high relief, facing left. Legend, JEFFERSON DAVIS. Reverse, wreath enclosing the date, 1861. Legend in semi-circle above C S A FIRST PRESIDENT. Beaded borders. Milled edge. Silver. Size of U. S. Dime. Very fine. Excessively rare. I do not recall of ever having but one other specimen pass through my hands. This rarity was originally purchased from Henry Chapman many years ago at $40.00. Original price ticket accompanies this coin. A rarity which is certainly worthy of membership in the $100.00 class of coins.

COMPLETE COLLECTION of U. S. HALF-DIMES or SILVER FIVE-CENT PIECES

These beautiful little coins have always been one of our most popular series. This collection is complete, which is really remarkable, as it requires years to obtain a complete collection. It includes all the rarities, including a choice specimen of the rarest of all Half-Dimes, the 1802, the original Dunham specimen, and all of the Half-Dimes minted at the Branch Mints.

U. S. HALF-DIMES of the PHILADELPHIA MINT

The coinage of Half-Dimes began in 1794 and discontinued in 1873. None were minted in 1798, 1799, 1804, 1806 to 1828 inclusive.

Martha Washington Half-Disme

Lot No.

1498 **1792** Half-Disme. Struck from silver furnished by George Washington from his private silver plate. On obverse there is a portrait said to be that of Martha Washington, with date below. Inscription around, LIB. (erty) PAR. (ent) OF SCIENCE & INDUSTRY. Reverse, flying eagle to left. Value, HALF DISME in two lines below. Legend, UNITED STATES OF AMERICA. Finely milled edge. Raised borders. A beautiful iridescent purple proof. As perfect a specimen as undoubtedly exists. Very rare and valuable. Historically interesting. Record well over $100.00.

1499 1794 First year of regular issue. Entire date distant from bust, close to border. Date is fairly close. Light die breaks on obverse. Practically uncirculated with iridescent mint surface. Sharp impression; perfectly centered. Newlin No. 1. Originally purchased as uncirculated and I firmly believe this coin has never been in circulation, as it shows just the very barest touch of cabinet friction. Not even listed in the Standard Catalog in this beautiful condition. It is listed in fine at $50.00. Worth at least double in this beautiful state.

Lot No.

1500 1794 Newlin No. 2. Figure 1 of date close to curl and distant from 7. Strictly fine. Newlin states that he had seen but six specimens of this variety. Purchased by Mr. Neil in 1928 as extremely fine. Rare and valuable.

1501 **1795** Newlin No. 1. Die break on upper right obverse edge as on the 1804 Cent. Stars on left not struck up. Uncirculated, slight cabinet friction. Rare so choice. Cost $37.00 over twenty years ago.

1502 1795 Newlin 1, but perfect die and stars all struck up. Top of 1 and point of 5 and first star on right touch bust. Beautiful uncirculated specimen with feathers on eagle's breast sharp. Scarce variety in extremely rare condition.

1503 1795 Newlin 2. Perfect dies. 1 of date touches curl but 5 and star are distant from bust. About fine.

1504 1795 Newlin 2. With broken die on obverse. Beautiful uncirculated specimen with semi-proof surface, well centered and struck. Originally purchased as a proof. Extremely rare so choice. Not in the Atwater Collection. Cost $50.00 in 1928.

1505 1795 Newlin No. 4. Die break from R across Liberty head. Feathers struck up on eagle's breast. Uncirculated, sharp. And I dare say it is extremely rare in this beautiful condition.

1506 1795 Newlin No. 7. 1 and 5 free from bust and curl. Light scratch or rather it looks as if it is a planchet break, across cheek. Extremely fine with mint luster. Very rare so choice.

1507 1795 Apparently not in Newlin. Reverse is that of Newlin No. 2, but the obverse, the date is close and distant from bust; die break from point of first curl to border. Strictly very good; can be classed as fine for this coin. Rare.

1508 **1796** over '95. Similar to Newlin No. 2, but he does not mention that the 6 has been struck over a 5. **Uncirculated.** Shows just the slightest touch of cabinet friction. Sharp and perfectly centered. Extremely rare so choice. Catalogs at $50.00 in only very fine. Worth at least double in this beautiful condition.

1509 1796 Newlin 1. Light die breaks on obverse. Practically uncirculated with mint luster. Very rare so choice. An extremely fine specimen in the Atwater Sale brought $42.50.

1510 1796 Variety with 1 of date touching curl and first star on left also touching curl. Die break on reverse. Very fine. Rare variety.

Lot No.

1511 **1797** Thirteen stars. **Uncirculated** with frosty mint surface. Sharp impression, well centered. Extremely rare so choice. In Newlin's excellent work on the subject he states—"I have never met with an uncirculated specimen of this variety and it is difficult to obtain in any condition." I do not claim that this is the finest specimen known, but I doubt if a finer specimen exists. Worth well into the three-figure mark. This is the rarest variety of the Half-Dime of this year.

1512 1797 Fifteen stars. Uncirculated with full frosty mint surface. The feathers on eagle's breast are not struck up. The reverse shows just the very barest touch of cabinet friction. A similar specimen in my Sale of the Atwater Collection brought $67.50.

1513 1797 Variety with sixteen stars. The first 7 of date is smaller. Uncirculated with mint luster. Light die breaks or die suction marks on obverse. Extremely rare so choice. This makes as beautiful a set of the rare Half-Dimes of 1797 that has ever passed through my hands and I believe as perfect as exists. Record $67.50. Worth more today.

1514 1800 Perfect R in LIBERTY. Beautiful uncirculated specimen with mint luster. Broad borders. Perfectly centered and well struck. This coin brought $30.00 in 1902, forty-five years ago and is said to have cost $50.00 in 1930, and was purchased as the finest known specimen. Very rare so choice.

1515 1800 The LIBEKTY variety. Practically uncirculated with the exception of a small spot on right obverse where it has been rubbed. This does not affect the appearance or value of the coin to any great extent. It is a beautiful specimen and worthy of a home in any collection. Catalogs $25.00 in only very fine.

1516 1801 Very fine, strictly so, especially for this rarity. Well struck and perfectly centered; free from any nicks or dents. A very difficult date to find so choice.. Record $50.00.

The Price List and Catalog of this important sale will give you most valuable information.

The EXCEEDINGLY RARE 1802 HALF-DIME

Lot No. 1517

1802 Half-Dime or Five-Cents Silver. Same type as the Half-Dimes of 1800 to 1805. Extremely fine. Two or three stars on reverse are not struck up, as is usual with this rarity. But otherwise it is a well struck specimen and one of the finest known of this great rarity.

The 1802 Half-Dime has always been considered as one of our very rarest of all U. S. silver coins, nearly in the same category as the 1804 Dollar. But this particular specimen, while being a great rarity and one of the finest known, is also a most famous one, with a most interesting historical pedigree, which adds much to its value and pleasure and pride of ownership. It is the original specimen from the celebrated Dunham Collection, sold by me in 1941. Mr. Dunham secured it from the Sale of the celebrated Harlan P. Smith Collection in May, 1906, where it was described by the cataloguers, S. H. & H. Chapman, (who were established in 1878) that "no finer specimen has been sold in fifteen years."

This takes us back to 1890, more tthan a half century ago, to the famous Parmelee Sale, where this coin was purchased by Bangs & Co. for Harlan P. Smith in June of 1890. It was described as "a remarkably fine specimen of this exceedingly rare coin." It brought $205.00. Please remember this was in 1890, more than fifty years ago, when, in the same Sale, such rarities as the 1798 Half-Eagle with small eagle sold for $50.00, and which coin has since sold for over $5,000.00: A 1798 Eagle with six stars facing, sold for $52.00 and since then the same coin has sold for well over $1,000.00: A 1794 Dollar, described as the finest known, sold for $225.00 and since then a specimen brought $2,000.00.

While I do not have any record where Mr. Parmelee obtained this Half-Dime, but as he was one of our very first collectors of U. S. coins, this coin was in his collection undoubtedly for twenty-five years or more, therefore, in a period of at least seventy-five years this famous coin changed hands only three times.

Mr. Neil paid $272.50 for this coin in the Dunham Sale, but since then a similar specimen in my Sale of the Atwater Collection brought $840..00 on a $1,000.00 bid. (The original Dunham invoice of the Smith Sale, as well as the invoice of the Dunham Sale, accompanies the coin.)

As stated in my Dunham Catalog, while it is true that a "coin is a coin," but there is always an added pleasure and satisfaction, as well as a thrill, and, yes, an added value in owning a rarity such as this in such choice condition and which reposed for so many years in such prominent collections!

Lot No.

1518 1803 Newlin No. 1. Large 8 in date. Lower leaf on reverse touches C. Strictly very fine; originally purchased as extremely fine. A similar specimen in my Sale of the Atwater Collection brought $36.50. In Mr. Neil's Collection for more than twenty years.

1519 1803 Newlin No. 2. Reverse, leaves touch I and A in AMERICA. Nearly uncirculated with mint luster. Rare in any condition, but extremely so when so choice. I know of a record of $90.00 for a specimen not as choice. Mr. Newlin knew of but one specimen of this variety.

1520 1803 Newlin No. 3. Small 8 in date. Faint die breaks on obverse and a heavier die break connecting bust and border. Uncirculated with just the very slightest touch of cabinet friction. The finest specimen I have ever seen of this rare variety and I doubt if a better specimen exists. Valued at $100.00, but of course this should not be taken as a limit, as this coin as every coin in this great Sale is to be sold absolutely without reserve.

1521 **1805** The second rarest Half-Dime. Only one variety of this date is known. I know of one specimen, sold in 1927, for $250.00 which, of course, was somewhat better than this, which can be classed as very fine, especially for this rarity. A similar specimen in my Sale of the Atwater Collection brought $120.00.

REMARKABLE COLLECTION of DIE VARIETIES of LATER HALF-DIMES

Mr. Neil made a special study of these interesting little coins. I believe this is the largest collection of die varieties of the Half-Dimes ever before offered. Very Extensive and Valuable Collection Of

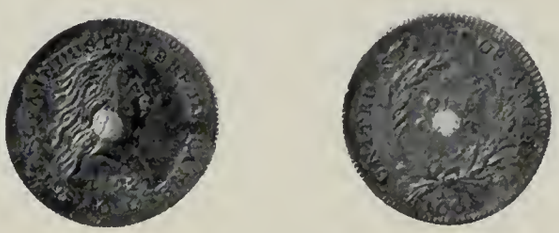
LARGE UNITED STATES COPPER CENTS

Nearly four hundred (400) different varieties. All dates and rarities, mainly in choice condition. One of the most extensive and complete collections offered in a decade. Including both varieties of the "Silver Cent" Cents.



Lot No. 1794

The Excessively Rare SILVER-CENTER Cent

1792 Silver-Center Cent. Head of Liberty with flowing hair facing to right, date below. Inscription, LIBERTY PARENT OF SCIENCE & INDUST:(ry). Reverse, ONE CENT in olive wreath with fraction 1/100 below. Legend, UNITED STATES OF AMERICA. Milled edge. Copper with small silver plug inserted in center, to bring up its value to the value of the metal. The silver center was placed in the planchet before striking. While this coin is listed as a pattern, it was undoubtedly struck for circulation, as it is found in various degrees of condition. Extremely fine, but I doubt if this coin has ever been in circulation, as it has considerable mint luster and only the highest portions show slight cabinet friction. Excessively rare. Only about eight specimens were minted. This particular specimen has an unusually interesting as well as valuable pedigree. It originally came from the great Earle Collection. At the Earle Sale it was purchased by the eminent numismatist, Mr. Wurtzbach of Massachusetts, who in turn sold it to the great Chicago collector Virgil Brand. From the Brand Collection it went to the Belden Roach Collection of New York, and when I had the pleasure of selling the Roach Collection in 1944, Mr. Neil was the successful buyer. It brought $525.00. But it is certainly worth much more today, considering its rarity, beautiful condition, and outstanding pedigree, and last but not least, the tremendous increase in value of all these greater rarities.

Lot No. 1795

The Excessively Rare 1792 Cent Without Silver Center

1792 Cent. The same type and design as the Silver-Center Cent with the exception that it does not have the silver plug in the center, and the edge is plain. In addition it is of the rare variety with circular die break on obverse, making the Liberty head appear struck on an oval planchet. This variety of this great rarity is considered even more rare than the Silver-Center Cent. It catalogs for 25% more than the other variety. Two minute nicks on reverse. They appear to be in the die. Strictly very fine. I believe as choice as exists. Catalogs at $500.00, but considering its great rarity, worth considerable more. To the best of my recollection, this is the first time, in my more than forty-six years of numismatic experience, that I have ever had both varieties of this Cent in any of my Sales.

1796 1792 Mint Trial piece for Large U. S. Cent. Obverse, eagle standing on pedestal to left with head turned to right. Reverse, in five lines, TRIAL PIECE DESIGNED FOR UNITED STATES CENT. 1792. Size of large Cent. Plain edge. Uncirculated with mint red, nicely blended with iridescent proof surface. Very scarce and highly interesting. Cost $10.00 many years ago. Certainly worth more today.

Splendid Collection of Some Four Hundred (400) different varieties of Large Cents are offered here.

And the Price List is only $1.

The REGULAR ISSUES of the LARGE UNITED STATES COPPER CENTS

For some reason or other, the series of our Large Copper Cents have enjoyed a greater popularity than any other series of our coinage. This has been true from the time systematic collecting of our coinage began, well over one hundred years ago. The regular coinage of Large Cents began in 1793 and discontinued in 1857. They were minted in every year excepting only 1815. There are more distinct types and die varieties of the Large Copper Cents than that of any other series of our coinage. They were minted at the Philadelphia Mint only.

The LARGE CENTS of 1793

Cataloged according to the excellent work on these Cents by Crosby.

Lot No.

1797 **1793 The rare Chain type,** first variety. Small Liberty head with flowing hair, facing right, LIBERTY above, date below. Reverse, ONE CENT and fraction 1/100 in center within chain. Legend, UNITED STATES OF AMERI. Vine and bars on edge. Crosby 1-A. Extremely fine, only slightest touch of cabinet friction. With beautiful semi-proof-like surface. Strong bold impression. Free from any nicks or dents of any kind. A superb Cent, worthy of a home in the finest collections. One of the finest specimens that has ever passed through my hands. Valued by Mr. Neil up to $600.00.

1798 1793 Crosby 1-C. Same type as last, Chain variety, but AMERICA instead of AMERI. On upper left obverse there is a planchet mark which looks like a scratch but it certainly is not, because it does not go through the L of LIBERTY. Strictly very fine. For this coin it can easily be classed as extremely fine. A coin well worth in the three-figure mark today.

1799 1793 Chain type, ~~Crosby 2-C~~. Same type as last, but the hair is longer, date closer. Strictly fine. Can be classed as very fine for this rarity. Free from any nicks or dents. Dark steel color. From the Roach Collection. In recent months, specimens no better than this have sold for upward of $100.00.

1800 1793 Chain type, Crosby 3-C. 7 of date is low and the 93 is closer than the other figures of date. A well struck specimen of this rare variety. A tiny, hardly noticeable, nick on reverse edge above M. The obverse surface is very slightly roughed. Far better than usually found, and of extreme rarity. Said to have been valued by former owner at $175.00.

1801 1793 Chain. Crosby 4-C. Type as last, but with periods after LIBERTY and date. Strictly fine. The coin came to me classified as very fine. Raised borders. A tiny nick above F on reverse. Even dark olive surface. Rare and valuable.

Lot No.

1802 **1793 Wreath type.** Crosby 6-F. Wide date. Large letters in LIBERTY. Vine and bars on edge. Very fine, bold impression, but surface, especially on obverse, is slightly roughed. Well centered and struck. Rare and in much demand and far better than usually found.

1803 1793 Wreath type. Crosby 7-F. Small letters in LIBERTY. Large broad sprig between date and bust. Strictly very fine, dark olive surface. Very rare so choice. High auction record. Said to have cost $75.00 nearly twenty years ago.

1804 1793 Wreath. Crosby 9-G. Reverse, light die break. Extremely fine with glossy medium olive surface. Only slightest touch of cabinet friction. A beautiful Cent and very rare so choice. Cost much over $100.00 some twelve years ago.

1805 1793 Crosby 9-H. Wreath. Vine and bars on edge. Double-stemmed sprig over date. Strictly very fine; glossy steel color. Well centered and struck and free from any imperfections. Rare so choice. Cent easily worth in the three-figure mark.

1806 1793 Crosby 10-I. Wreath. Vine and bars on edge. Small knot in bow on reverse. Fine to very fine, but surface roughed. Very rare variety.

1807 1793 Wreath. Crosby 11-J. Vine and bars on edge. A very slight planchet mark on edge, looks like a tiny nick. Two short and light planchet lines which appear as scratches. Medium brown surface. Strictly fine; can easily be classed as very fine for this rarity. High auction record.

1809 1793 Wreath. Crosby 11-J. Lettered edge, but with two leaves after the word DOLLAR on edge. The entire inscription is of different size letters and spacing than is on Crosby 11-J. The reverse is very slightly pitted. Extremely fine and even medium olive surface and only slight cabinet friction. Very few specimens known of this rarity.

1810 **1793** Very rare **Liberty cap** type. Crosby 12-L. Perfect die. Fraction is low. An unusually bold impression for this rarity. Medium olive surface. Free from any nicks or dents with the exception of a small planchet defect on right reverse edge above M. Extremely rare. Cost $120.00 several years ago. Strictly fine. Was originally purchased as very fine, and for this rare variety the description was justified.

1811 1793 Liberty cap. Crosby 13-L. Die break across obverse, very pronounced. Extremely fine with glossy medium olive surface and traces of original mint red nicely blended. One of the finest specimens of this rarity known. From the Pearl cabinet. Record for an uncirculated specimen of this date and type, $2,000.00. While I do not consider this to be a $2,000.00 coin, but it is certainly worth well into the three-figure mark.

COLLECTION of UNITED STATES HALF-CENTS

The Half-Cents were minted from 1793 to 1857 with the exception of the following years: 1798, 1799, 1801, 1812 to 1824 inclusive, 1827 and 1830 and 1837. They were minted at the Philadelphia Mint only.

A Complete Collection of One Hundred Different Dates and Varieties Representing Every Date Minted With Varieties of Many

Complete Set of All Varieties of the Rare 1793 Half-Cents Described According to Crosby.

2191 **1793** Crosby 1-A. Top curl between LI in LIBERTY. The berries in point of wreath end between S and O. Strictly fine to very fine. A tiny edge nick or planchet file mark on lower left reverse. Medium olive surface. Rare and valuable. Catalogs $50.00 in fine. A similar specimen in my Atwater Sale brought $52.00 when this coin cataloged for only $35.00.

2192 1793 Crosby 1-B. A strong impression and extremely fine, but unfortunately rather deep dents on head and in center of reverse. But a good space-filler for this rare variety. Without these defects the coin could easily be classified as extremely fine.

2193 1793 Crosby 2-A. Point of curl under and to right of I. Strictly very fine. For this rarity it can be classed as extremely fine. Even light brown surface. A beautiful specimen of this rare Half-Cent. Cost $50.00 in 1928.

2194 1793 Crosby 2-C. Fine to very fine. The center of reverse not as boldly struck up, but free from any nicks or dents. Well centered. Seldom found better or even as good.

The LIBERTY CAP HALF-CENTS of 1794 to 1797 Inclusive

The Half-Cents from here on are described according to the work on the subject by Gilbert.

2195 **1794** Gilbert 1. Small head, 1 nearly touches bust. Nine berries on reverse. Perfect obverse die. A beautiful sharp specimen with the two extra leaves of wreath showing plainly. Strictly very fine. Rare, especially so choice. Valued at $30.00.

2196 1794 Gilbert 3. Small head; 4 nearly touches bust. Eleven berries in wreath. Obverse about very fine. Reverse, fine, but lower right portion not struck up. Classed by Gilbert as Rarity 7. Extremely rare. Seldom offered.

2197 1794 Gilbert 4. Close date. Broken dies on obverse. Extremely fine, sharp with glossy steel color. Rare so choice.

2198 1794 Gilbert 5. Large head. 7 of date low. Nine berries on reverse. Strictly fine; steel color.

2199 1794 Gilbert 8. Large head, 79 about level at top and close together. Eleven berries on reverse. Very good. Rarity 5.

Lot No.

2200 1794 Gilbert 9. Large high head. Wide low date. Very fine, strong impression. Dark olive. From Dr. Valentine's Collection. Purchased in 1927.

2201 **1795** Gilbert 1. Lettered edge, with pole to Liberty cap. Fairly thick planchet. Extremely fine, free from any nicks or dents. Well centered and bold impression. Rare so choice. Record near $50.00.

2202 1795 Gilbert 3. Lettered edge with pole to cap. Punctuated date. Eight berries on reverse. From the rare die with break over AMER. Strictly fine; steel color. Rare.

2203 1795 Gilbert 4. Plain edge. Pole to cap. Punctuated date. Seven berries on reverse. Very fine, beautiful light brown surface. The center of reverse not struck up as is usual of this variety.

2204 1795 Gilbert 5. Without pole to cap. Plain edge. Extremely fine, light brown surface. Strong impression. A short light scratch on obverse, hardly noticeable. Quite rare so choice.

2205 1795 Plain edge. Gilbert 8. Punctuated date. About fine, steel color. When Mr. Gilbert wrote his excellent work on the subject in 1916, he stated as follows: "It is believed (this variety) to be excessively rare, as but one specimen is known." He classed it as Rarity 9, the highest rating given any Half-Cent. In 1924 a better specimen brought $80.00.

2206 **1796** Variety with pole to cap. Gilbert 1. The obverse is very fine, especially for this great rarity. The reverse is very good to fine, mostly fine. Few minute nicks not affecting the appearance or value of this rarity. A nice even olive surface. Well centered and struck. From the Roach Collection sold by me in 1944. The rarest date Half-Cent and far above the average for condition. Catalogs $300.00 in fine and certainly worth it.

2207 **1797** Gilbert 1. **Lettered edge.** Obverse strictly fine, except for a very small nick or dent between head and cap. Complete milled border on obverse. The reverse is fine to very fine. As usual, not evenly struck up. A tiny pin-point nick on upper left edge. Nice even brown surface. One of the very best specimens I have ever seen of this rarity. Usually found poor. Not in some of the largest collections. Even the Atwater Collection did not have a specimen. In the Alvord Sale, in 1924, a specimen no better than this, or even as good, brought $100.00. Please remember this was in 1924, nearly a quarter of a century ago. Catalogs $50.00 in only good. This specimen is certainly worth well into the three-figure mark.

2208 1797 Gilbert 2. Plain edge, with pole to cap. Die break at chin. Very good. Very scarce variety.

Lot No.

2209 1797 Gilbert 3. Plain edge; pole to cap. Date is low. Variety with broad milled borders on obverse. Tiny planchet nick on right obverse edge and on right reverse edge. Very fine; glossy olive.

2210 1797 Gilbert 4. Plain edge with pole. Variety with 1 above 1 of date. Very fine; dark olive.

2213 1802 Gilbert 2. Obverse of 1802, reverse of 1800. In Gilbert's work it states that this variety "is exceedingly rare." I doubt if more than two or three specimens are known. This is originally from the Alvord Collection. Strictly very good; lightly scratched in obverse field. Mr. Alvord collected only Half-Cents and he had no less than 231 varieties. This is the only and best specimen he could obtain in his many years of collecting. Cost $46.00 in 1927.

2226 1804 G. 11. Spiked chin, protruding tongue. Die break on reverse. Extremely fine with glossy olive surface. An excessively rare variety in still more rare condition. One of the finest specimens known of this rare variety.

2227 1804 Not in Gilbert. Similar to G. 2, but letters of LIBERTY mostly re-touched. Die break at nose, making it appear as a broken nose of Liberty and also has a double bust line. AG-3 2235 1806 Not in Gilbert. Small 6; with stems, but it has a die break over IC on reverse. The 6 in date is distant from 0 and close to drapery. While this coin is good to very good, it has a dent above head on obverse. But it is the first specimen I have seen and is probably unique. Mr. Neil obtained this some twenty years ago.

GOLD COINS OF THE UNITED STATES
1843

A Thrilling Offering!

COMPLETE PROOF SET of 1843
In GOLD, SILVER and COPPER

The Real Beauty of These Coins Cannot Be Illustrated by Photograph

Lot No. 2292

1843 Complete Proof Set, from Half-Cent to and including $10.00 Gold. The Set is in the original Mint Case, red morocco, trimmed in gold, plush lined, with receptacles for each coin. This remarkable Proof Set contains the following ten gold, silver and copper coins:

To amon Carter, Sr.

1843 Half-Cent. Original, large berries. A sharp struck proof with even brilliant olive iridescent surface. Broad borders with wire edge. Catalogs $75.00.

1843 Large Cent. An iridescent red and olive proof. Record about $50.00.

1843 Half-Dime. Perfect brilliant proof. Excessively rare and almost priceless in this condition.

1843 Dime. Perfect brilliant proof gem. These early proofs are not even listed in the Standard Catalog, as they are excessively rare and seldom offered. I doubt if as many as a dozen specimens are known to exist.

1843 Quarter-Dollar. Perfect brilliant proof. Of excessive rarity.

1843 Half-Dollar. Brilliant proof. Excessively rare. (Record $70.00.)

1843 Silver Dollar. Brilliant proof. (Record $150.00.)

1843 **$2.50 Gold.** A sharp perfect brilliant proof gem. A thorough search of sales records of our times only reveals but one record of sale, that of $275.00. Worth a great deal more today.

1843 **$5.00 Gold.** Can find but one record of sale. Of excessive rarity.

1843 **$10.00 Gold.** Perfect brilliant proof gem, as are the other two gold coins in this remarkable set. I doubt if as many as five or six specimens are known—probably not more than ten specimens of each of the gold struck in proof.

This magnificent and excessively rare Proof Set, as stated before, is in the original Mint Case as issued, in 1843. We can readily understand the infinitesimal number of proofs struck at the Mint over one hundred years ago. I know of but one other similar set. The Set here offered originally came from a famous Collection sold at auction in Amsterdam, Holland, some twenty years ago. I had my European representative purchase it for me. I sold it to Mr. Stoddard of Pasadena, California. Later, to be exact, in 1932, when I purchased the Stoddard Collection, this Set was in turn sold by me to the late Colonel E. H. R. Green. After the passing of the Colonel, I acquired this Set indirectly, and again sold it to Mr. Neil. This is the first time this beautiful and exceedingly rare Set is offered at auction in this country. I consider it the most outstanding and desirable item in this Great Collection.

As I will undoubtedly receive many inquiries as to what I think this Proof Set will bring, I want to state here that it is quite impossible to place an exact value of a great rarity such as this. While the coins are excessively rare separately, but they are doubly rare and valuable when in a complete set. I can only say that if I owned the set, my price would be not less than $2,000.00, and very likely $2,500.00. This statement, however, should not be taken as a limit. It is only my humble opinion. This Set, like all items in this Sale, will be sold absolutely without reserve. I might add, however, that the acquisition of this beautiful and great rarity will not only prove a profitable investment, but a source of much pride and joy to the fortunate purchaser.

The Rarest Date Gold Dollar, 1875

Lot No. 2325

1875 Gold Dollar. The rarest date of the issue. **Perfect brilliant proof.** Unusually sharp impression. Extremely rare and valuable. Only 420 specimens minted in all, of which number only a small quantity now exists. The value of this coin has been steadily advancing. In 1941 this coin brought $152.50 at auction, but since then a specimen has sold for $335.00. A similar specimen in my Atwater Sale brought $315.00. I still say that this coin is destined to become a $500.00 coin in the not distant future.

Lot No.

U. S. GOLD DOLLARS of the BRANCH MINTS

These beautiful and interesting small gold coins were also minted, besides the Philadelphia Mint, at the branch mints of Charlotte, North Carolina; Dahlonega, Georgia; New Orleans, and San Francisco. All of the Gold Dollars minted at the Branch Mints are very scarce, and most of them are rare. In fact some of our very rarest Gold Dollars are those minted at the Branch Mints.

GOLD DOLLARS MINTED at the CHARLOTTE MINT

Gold Dollars were minted at Charlotte from 1849 to 1859 with the exception of 1856 and 1858. According to the mint report there were supposed to have been four specimens minted in 1854, but not a single specimen is known to exist nor was it ever known in any collection. Whether or not the Mint report is correct, no one can say. In fact we have given up hopes of ever discovering this coin and it is not even listed any more in the Standard Catalog. The set here offered is complete as is the entire series here offered.

Lot No.

2340 1849 Closed wreath. Small C. Strictly very fine. As choice as is usually obtainable. Rare and valuable. Record for an uncirculated specimen, $65.00.

2341 **1850 C. Mint.** Strictly very fine. The reverse is extremely fine. Extremely rare and steadily advancing in value. Until just a few years ago this coin was an "unknown quantity." However, collectors woke up to the real rarity and value of this coin and it has been on a steady upgrade for the past few years. It now catalogs for $150.00 in uncirculated while only last year it cataloged for $50.00 in very fine. A similar specimen in my Sale of the Atwater Collection brought $152.50. It is one of the real rarities of the Gold Dollar series.

2342 1851 C. Uncirculated with just the slightest touch of cabinet friction. Another rarity. Catalogs $35.00 in uncirculated.

2343 1852 C. Uncirculated with frosty mint surface. Just the slightest touch of cabinet friction. Catalogs $50.00.

2344 1853 C. Nearly uncirculated. Slightly rubbed on right portion of reverse, but a most acceptable specimen of this very scarce coin which catalogs at $30.00 in only very fine.

2345 1855 C. Variety with die break back of head. Very fine. Seldom found equal. Very scarce. A similar specimen in my Atwater Sale brought $31.50.

2346 1857 C. Very fine. Very scarce. Catalogs at $40.00 in very fine—an advance of $10.00 over last year's catalog.

2347 1859 C. Beautiful uncirculated specimen with broad borders on obverse similar to the Dahlonega Gold Dollars. Frosty mint surface. The first two figures in date not as bold as the others, but as beautiful a specimen of this coin as I have seen in many a year. Purchased by Mr. Neil over twenty years ago. Catalogs $85.00 and certainly worth it.

COMPLETE COLLECTION of the RARE DAHLONEGA MINT GOLD DOLLARS

While the Dahlonega Mint was established in 1838, but Gold Dollars were first minted in 1849 and discontinued in 1861. All of the Gold Dollars coined at this Mint are rare and some are extremely rare, such as the 1855, 1856, 1860 and 1861.

Lot No.

2349 1850 D. Extremely fine, nearly uncirculated, but lightly scratched on obverse. Rare. A similar specimen in my Atwater Sale brought $55.00.

2350 1851 D. Strictly very fine. Tiny nick on right obverse edge, hardly noticeable. Quite rare. A practically uncirculated specimen brought $52.50 in my Atwater Sale.

2351 1852 D. Variety with light die breaks on reverse. Practically uncirculated with mint luster. Record $75.00.

2352 1853 D. Extremely fine, sharp impression. Light nick on obverse. Rare. Catalogs $40.00 in this condition.

2353 **1854 D.** Very fine, strictly so with considerable mint luster on obverse. Sharp impression. Rare. Record well over $100.00.

2354 **1855 D.** Extremely fine with unusually bold impression for this date and mint. The 8 of date, as usual with all specimens of this coin, is weakly struck. The balance of the date is bold. Unusually bold mint letter. Only a total of 1811 specimens minted. Record over $200.00 for a similar specimen.

2355 **1856 D.** Practically uncirculated with brilliant mint luster. This is the identical coin from the great Atwater Collection where it was described as undoubtedly one of the finest specimens of this rarity in existence, and it brought $250.00. It now catalogs for $275.00.

2356 **1857 D.** First year in which the mint letter D is larger. Extremely fine with frosty mint surface. Rare and valuable. Record of $90.00 for a similar specimen.

2357 1858 D. Practically uncirculated with almost full brilliant mint luster. As usual, the right portion of the first 8 and the figure 5 are not boldly struck up. Rare in very rare condition. Catalogs $90.00 uncirculated.

2358 1859 D. Uncirculated with full frosty mint surface. Unusually bold impression with fairly broad borders on obverse. Catalogs $85.00.

2359 **1860 D.** Practically uncirculated with proof surface. A pinpoint nick, hardly noticeable, at point of bust. The planchet is very slightly irregular. This specimen is from my Sale of the Grinnell Coin Collection in 1943 when this coin cataloged at $175.00. It brought $155.00. A specimen in my Atwater Sale, last year, when it cataloged $200.00, it brought $210.00. Today this coin catalogs for $300.00. In my opinion it is the rarest Gold Dollar of any year and of any Mint.

Lot No.

2360 **1861 D.** Considered the rarest Gold Dollar, but I believe that there are slightly more specimens known of this rarity than there are of the 1860 D. The coin is extremely fine but it seems to have been slightly bent. There is a die break above and to right of the last figure 1 in date which appears to be another 1. This coin catalogs at $350.00 in uncirculated.

COMPLETE SET of NEW ORLEANS MINT GOLD DOLLARS

2362 1850 O. Strictly very fine with considerable luster. Very scarce. Catalogs $15.00 and has a higher auction record.

The San Francisco Mint was established in 1854. And the coinage of Gold Dollars began in that year. They were minted in the years of 1854, 1856 to 1860 inclusive, and in 1870, which is the rarest of the series.

2367 1854 S. First year of issue. Practically uncirculated. Very scarce, especially so choice. Catalogs $40.00.

2368 1856 S. Upright 5, as all are. Interesting and rare variety with double-struck S. Extremely fine with frosty mint surface. Catalogs up to $40.00.

2369 1857 S. Very fine; slight hair lines. Quite rare. Catalogs $25.00 in very fine.

2370 1858 S. Very fine, strictly so. Record over $31.00 for a similar specimen which this coin cataloged at $25.00. It now catalogs at $30.00.

2372 1860 S. Uncirculated, sharp, with full mint luster. Catalogs $35.00.

The Very Rare 1870 S. Mint Gold Dollar

2373 **1870 S.** Uncirculated with brilliant mint luster. The reverse is a brilliant semi-proof. One of our very rarest gold dollars with auction record well over $200.00. In much demand and value steadily advancing.

COMPLETE GEM SET of U. S. COMMEMORATIVE GOLD DOLLARS

2374 1903 Louisiana Purchase Exposition. Portrait of Jefferson. Our first commemorative gold dollar. **Perfect brilliant proof.** This is not a brilliant uncirculated coin, but a real honest-to-goodness brilliant proof gem. If my memory serves me right, only fifty specimens were struck of this and the following gold dollar and were presented to the high officials of the Exposition. Extremely rare in this remarkable state of preservation. Mr. Neil values these at $50.00 each, and I agree with him in his valuation.

2375 1903 Same issue as last but with portrait of McKinley. **Perfect brilliant proof gem.** The statement made above holds true for this beautiful coin.

2376 1904 Lewis & Clark. **Brilliant proof.** I know that proofs were not supposed to have been struck, and probably this was not perfectly struck as a proof, but I do not know what else to call it but a brilliant proof, as it is just that. Last year, this coin in uncirculated condition cataloged at $40.00 and brought over $50.00 at auction. This year it catalogs at $60.00. This specimen, in brilliant proof, is worth almost any price.

2377 1905 Lewis & Clark. Brilliant semi-proof; nearly equal to a perfect proof. Catalogs $60.00. In great demand and value steadily advancing.

2378 1915 Panama-Pacific. Variety with mint letter S (these gold dollars were all struck at the San Francisco Mint). High between DO, almost touching O. Uncirculated. Catalogs $10.00.

2379 1915 Panama-Pacific as last, but the very rare variety with mint letter central between DO and Dolphin. Uncirculated.

2380 1916 McKinley Memorial. I'll take a chance and classify this coin as a brilliant proof, and if the successful bidder disagrees with me he may return it. Catalogs $15.00—an advance of $5.00 over last year's price.

2381 1917 McKinley Memorial. Brilliant semi-proof. Pin-point nick on obverse, hardly noticeable. Catalogs $17.50.

2382 1922 Grant Memorial. Variety with star incused, or stamped in, above GRANT. Uncirculated. Catalogs $25.00—an advance of $10.00 over last year's price.

2383 1922 Grant Memorial. The rare variety without star. Sharp brilliant uncirculated. Catalogs $30.00—an advance of $10.00 over last year's catalog, at which time this coin brought $28.00. Should bring a correspondingly higher price, as in great demand.

2392 **1796** First year of issue and first type, without stars on obverse. Reverse, heraldic eagle. Very fine obverse with extremely fine reverse. Considerable original mint luster. From the Roach Collection. Rare and valuable and in great demand. Now catalogs at $250.00, but have noticed one priced at private sale up to $375.00.

2393 **1796** Second type or variety of this rare date, our first Quarter-Eagle. Same type as last, but with sixteen stars on obverse. Strictly very fine to extremely fine with considerable original mint luster. A real rarity with auction record of over $400.00.

Lot No.

2394 **1797** Same type as last, but with thirteen stars on obverse. The usual die break on right obverse. Extremely fine; slight wear evenly distributed on highest portions. Free from any imperfections. A most difficult date to find choice. One of our greatest rarities of this series. Originally from the great Colonel Green Collection. Record over $450.00.

2395 **1798** A magnificent sharp specimen, practically uncirculated with almost full brilliant mint luster. Perfectly centered, sharp. A rarity, especially so choice. Catalogs $175.00, but has been priced up to $275.00.

2396 1802 Extremely fine with frosty mint surface. Free from the slightest imperfections. A specimen not as choice in my Atwater Sale brought $75.00 and have noticed it priced at private sale up to $175.00.

2397 1804 Beautiful sharp uncirculated specimen with full brilliant mint luster. Truly a gem coin and very rare so choice. The Atwater specimen was only very fine and it brought $63.50. This one worth much more. From the Roach Collection.

2398 1805 Brilliant uncirculated with semi-proof surface; sharp and perfect in every respect. Not a very rare date, but I consider it extremely rare in this beautiful state of preservation. Cost $100.00. Seldom obtainable so choice.

2399 **1806 over 1804.** Beautiful semi-proof, almost equal to a proof. Sharp and perfect in every respect. A gem and of the greatest rarity in this beautiful state. Note accompanying this coin states that it is the "finest known specimen." Of course, I cannot make a statement of this kind, but I do know that it is as beautiful a specimen as can possibly exist. Record over $200.00. Should bring much more today.

2400 1807 Uncirculated with brilliant mint luster. Just the very slightest touch of cabinet friction. A similar specimen in my Atwater Sale brought $105.00, but it has a higher auction record. This beautiful specimen is from the Roach Collection.

2401 **1808** New type; bust to left. Reverse, eagle with shield on breast; scroll with motto above. Value, 2½ D. below. Very fine obverse with extremely fine reverse. This is another coin the rarity of which was not appreciated until just recently. Only in 1944 the coin cataloged at $100.00. Today it catalogs at $200.00 in only very fine, but a specimen in my Atwater Sale in similar condition brought $235.00 and have noticed it advertised at retail at $325.00. This specimen here offered is just about as choice as is possible to obtain of this rarity.

Lot No.

2404 **1825** Beautiful uncirculated specimen with full brilliant mint luster—semi-proof surface. Record up to $180.00. From the Roach Collection.

Gem Specimen of the Excessively Rare 1826 Quarter-Eagle

1826 $2.50 Gold. Sharp brilliant proof. The Extremely Rare 1875 Quarter-Eagle

1875 $2.50 Gold. Originally purchased by Mr. Neil as a brilliant proof. The coin is a proof, but not in full brilliancy, the field shows slight cabinet friction. However it is a choice and desirable specimen of this rarity, of which only 420 specimens were minted in all. Steadily advancing in value. Just about doubled in value in the past four or five years. Even in the period of time from 1946 to 1947, it advanced 100% in catalog listing. In my Sale of the Atwater Collection, in June of 1946, when this coin cataloged for $150.00, it brought $365.00. UNITED STATES THREE-DOLLAR GOLD PIECES

A Complete Set With The Exception Of Only One Date

The $3.00 gold pieces were minted from 1854 to 1889 inclusive at the Philadelphia Mint. Also in 1854 they were minted at the Dahlonega, Georgia, and New Orleans Mints. And in 1855, 1856, 1857 and 1860 they were coined at the San Francisco Mint. Two specimens were minted at the San Francisco Mint in 1870 but there is no mint record of it, but the coins are known and, of course, are of excessive rarity.

2560 1854 Strictly very fine with considerable luster. Scarce and in much demand. Catalogs $20.00 in this condition. In fact, there are very few of the $3.00 gold pieces that now catalog for less than $20.00.

2561 1854 **O Mint.** Only year of issue at this Mint. Nearly uncirculated with some luster. Catalogs $25.00 in very fine.

Lot No.

2562 1854 **Dahlonega Mint.** Only year of the $3.00 gold pieces struck at this mint. Strictly very fine with unusually bold impression. Raised borders with tiny pin-point nicks, but the nicks are apparently due from the milling extending to the edge of border. The milling on this coin, as on all specimens of this date and mint $3.00 gold pieces, is not sharp. Very rare. A similar specimen in my Sale of the Geiss Collection brought $92.50. Catalogs up to $125.00.

2563 1855 Very fine, strictly so.

2564 1855 S. Mint. Very fine with some luster. Very scarce.

2570 1859 Very fine, strictly so. A pin-point nick, hardly noticeable, on lower reverse edge. Catalogs $22.50.

2571 1860 Extremely fine, nearly uncirculated. Light hair line on obverse. Scarce date. Catalogs $25.00.

2585 **1873** Semi-proof. Slight cabinet friction, showing a light nick on cheek, but hardly noticeable with the naked eye. A most acceptable specimen of this very rare coin. Probably less than 100 specimens struck. The Mint reports that only 25 were struck, but we feel certain that this is incorrect. Latest record for a specimen not near as choice is $150.00.

2586 1874 One of the least rare of the entire series, but like all $3.00 gold pieces, scarce and in much demand. Catalogs $17.50. Strictly very fine.

2587 **1876** The second rarest date of the $3.00 gold piece. A beautiful brilliant gem proof with wire edge. Just as perfect as the day it dropped from the coining press. The surface is so perfect and brilliant that shadows show if the coin is held at certain angles. Only 45 specimens minted. Steadily advancing in value. A similar specimen in my Sale of the Geiss Collection, held last February, brought $575.00. This specimen is from the William Knapp Collection of Kansas City sold by me in 1945. Mr. Neil values this coin at $650.00, but of course, this should not be taken as a limit. The coin will positively be sold to the highest bidder.

2588 **1877** Brilliant proof. Raised borders and wire edge. Shows very slight cabinet friction on obverse field but this only shows when the coin is held at a certain angle. This coin is far more rare in proof condition than is generally realized. I think that there are just as few proof specimens of this $3.00 gold piece known as there are of 1876. Catalogs $225.00.

2589 1878 Extremely fine, frosty mint surface. Just about uncirculated.

2590 1879 Extremely fine with brilliant mint surface. Almost equal to a semi-proof.

2591 1880 Brilliant proof; just the slightest cabinet friction which is hardly noticeable. Rare. Only 1036 minted. Recent record $75.00.

Lot No.

2592 1881 Originally purchased as a brilliant proof. I can only catalog it as a semi-proof or proof with slight cabinet friction. The borders are raised and it has a partly wire edge. Only 550 minted. Very rare. A perfect proof in my Geiss Sale, last February, brought $140.00. This coin is worthy of a home in any collection.

2593 1882 Perfect brilliant proof gem with wire edge. Just as perfect as the day it was minted. Only 1540 coined. Latest record over $57.00.

2594 1883 Proof, brilliant, but shows very slight evidence of handling and minute nick on high wire edge. Only 940 minted. Record $70.00.

2595 1884 Brilliant proof with wire edge. Very slightest touch of cabinet friction. Rare. Only 1106 minted in all and probably not more than 50 proofs struck. Catalogs $65.00 and has an auction record for about that amount.

2596 1885 Proof, but field slightly rubbed. Still a most acceptable specimen of this rarity. Only 910 minted. Recent record $74.50.

2597 1886 Brilliant proof. Struck in light yellow gold. Only 1142 minted. Record over $64.00.

2598 1887 Proof, sharp. Scarce. Catalogs $45.00.

2599 1888 Uncirculated with frosty mint surface. Catalogs $30.00.

2600 1889 Last year of issue. Brilliant semi-proof. Catalogs at $50.00 in proof and has a higher auction record.

Again I call your attention to the importance of adding the Price List of this great Sale to your library.

The HISTORY of the "STELLA" or U. S. $4.00 GOLD PIECES

Several attempts have been made from time to time to modify our currency for the purpose of stimulating foreign trade. We nearly lost much of our Chinese business because our Dollar did not compare in silver content with the Mexican and other coinage. The Trade Dollar was the device adopted for several years, from 1873 to 1878, to try and correct that deficiency.

But many years before the advent of the Trade Dollar, there had been held in Paris a Currency Convention whose main purpose was to devise a gold coin which would serve as an International Standard of Currency. This Convention was held in 1867, and the French Mint struck a gold coin whose obverse showed the head of Napoleon III and whose reverse bore the dual statement of value—"5 Dollars—25 Francs."

Based on the exchange value of the franc or dollar, and using the franc as the unit, the value of the 5 Dollars on this coin would be 17.5 cents less than the regular issue of the five-dollar gold piece. However, it was felt we should accept this minor change in our dollar valuation.

In a spirit of cooperation the Director of the Mint ordered the issue of a pattern to correspond to this French coin, and Anthony C. Pacquet designed the U. S. equivalent coin, bearing the head of Liberty on the obverse, and "5 dollars—25 francs" on the reverse.

Congress did not approve the proposed International coin.

The next attempt to introduce an international coinage was not based so much upon the desire to stimulate foreign trade as to increase the convenience of foreign travel. Dana Bickford had objected to the annoyances of calculating the value of his U. S. money while travelling in various European countries. In 1874 he persuaded the Director of the Mint to design a $10.00 pattern coin on which was to be inscribed in the center of the coin the weight and fineness of the gold, namely "16.72 grams .900 fine Ten Dol." The reverse also showed six sections on which was given the value of this coin in terms of the currency of six countries. Thus:

In United States	Dollars 10
In Great Britain	Sterling £2-I-1
In Germany	Marken 41.99
In Austria	Kronen 37.31
In Holland	Gulden 20.70
In France	Francs 51.81

Again the Congress did not adopt this coin.

Finally in 1879 the most interesting coin of all the International series was designed. This was the Stella—a $4.00 gold piece.

The Secretary of State requested the Secretary of the Treasury to study the development of a coin which would most nearly equal in value the common trading units of the important commercial nations.

Doctor Hubbell devised the unit Four Dollar (or 400 Cents), which was conveniently close to the value of the French 20 francs, the Italian 20 lire, the Spanish 20 pesetas, the Dutch 8 florins, the Austrian 8 florins, and was not too far off the British pound. It was also intermediate between our own $2.50 and $5.00 and would serve us satisfactorily in place of both.

A good deal of enthusiasm was developed for this idea, and it was hoped the various European countries could agree upon such an International Coin, and thus facilitate trade between the countries.

To add to the convenience of the coin, it was to show the weight of each ingredient. Thus, the $4.00 gold piece weighed exactly 7 grams and contained 6 grams gold, 0.3 grams silver, and 0.7 grams copper.

The name "Stella" was chosen for the coin because the "star" and the eagle are the national emblems on our coins. The word Stella was inscribed on the body of the star.

Charles E. Barber designed the coin in two styles, one with Liberty having flowing hair quite similar to several of the earlier American issues. On the other, Liberty was given what was a more stylish "hair-do" for the late seventies.

In the light of the recent discussions by the United Nations to seek a stabilized post war currency, it is especially interesting to numismatists to watch the efforts of the new generation, perhaps unacquainted with the history of our own coinage, to struggle once more with the problems of an international currency.

Perhaps the Stella will be re-invented!

COMPLETE SET

Of The Beautiful, Interesting and Extremely Rare UNITED STATES FOUR-DOLLAR GOLD PIECES!

Lot No. 2601

1879 $4.00 Gold. The first year and first type of this beautiful and rare coin. Beautiful head of Liberty with flowing hair. Reverse, a large five-pointed star on which is inscribed ONE STELLA. 400 CENTS. Legend. Milled edge. **Perfect brilliant proof.** Very rare and in great demand. Only about 600 specimens minted in all. These were distributed to each member of the United States Congress. Most of the specimens were kept as keepsakes or pocket-pieces and only a fraction of the number minted remained in perfect brilliant proof condition. As the values of all coins, as well as everything else, is governed by "supply and demand," the reason for the great popularity of this coin is due to its odd denomination. And its increasing value is due to the fact that all collectors, whether or not they are interested in gold, and many non-collectors, aspire to own a specimen of this beautiful and odd coin. In 1943 the record for this coin was $285.00, but a specimen in my Sale of the Atwater Collection in 1946 brought $550.00. I have seen these coins offered and advertised at well above $600.00. I may be a bit too enthusiastic, but I feel that it won't be very long before this coin will enter the elite class of $1,000.00 coins.

2602 **1879 $4.00 Gold.** Duplicate just as last, flowing hair variety. **Brilliant proof.** The reason of two specimens of this variety being in the Sale is that Mr. Neil had the first one in his collection and afterwards bought the complete set. Just as beautiful and just as rare as the preceding lot.

Lot No. 2603

The Excessively Rare 1879 Four-Dollar Gold Piece With COILED HAIR

1879 $4.00 Gold. The excessively rare variety with head of Liberty with coiled hair. The hair-do prevalent in 1879. The reverse same as the first type. **Perfect brilliant proof.** Only about twelve specimens minted, but a smaller number known to exist, as those offered in recent years are the same specimens offered from one collection to another. Steadily advancing in value. A specimen in my Grinnell Sale, held in 1943, brought $575.00, a record then. But just one year later, in my Sale of the Olsen Collection, a specimen of this variety brought $825.00. Another beautiful coin destined to become one of our very high priced gold coins.

Lot No. 2604

The Excessively Rare Four-Dollar Gold Piece 1880, With Flowing Hair

1880 $4.00 Gold. Liberty head with flowing hair, same type as the first issue of 1879. **Brilliant proof.** Of excessive rarity. Steadily advancing in value. A specimen in my Sale of the great Dunham Collection brought $490.00. In my Sale of the Roach Collection in February of 1944, a specimen brought $632.00. And in November of the same year, 1944, in my Sale of the Olsen Collection, a similar specimen brought not less than $975.00. It requires little imagination to foretell the bright future of this great coin.

Lot No. 2605

The Rarest Date and Type of All Four-Dollar Gold Pieces
The 1880 Four-Dollar Gold Piece With Coiled Hair

1880 $4.00 Gold. Liberty head with **coiled hair. Brilliant proof gem.** Of excessive rarity. While according to the mint records the number of specimens of this date and variety minted was about the same as that of the 1879 coiled hair and the 1880 flowing hair, but there has been far fewer specimens of this rarity offered than that of any other $4.00 gold piece. It is seldom that a complete set of these beautiful and rare coins appear in one Sale. Although it is true that in the past six years I have offered two other sets besides this one, but this was due to the fact that I had some great collections to offer. I consider this coin one of the very rarest of all United States gold coins. A specimen in my Sale of the Grinnell Coin Collection in 1943 brought $850.00. A year later, in my Sale of the Olsen Collection, a similar specimen brought $1,075.00.

NOTE: While bids will be entertained for each $4.00 gold piece separately as listed above, bids for the entire set as a whole will also be entertained. If such bid exceeds the total amount of the separate bids received, I reserve the right to sell the four specimens as a lot. The auction record for the set is $3,425.00.

UNITED STATES FIVE-DOLLAR GOLD PIECES

After the $4.00 Gold Pieces, Mr. Neil did not go in extensively for the U. S. Gold Series, but has a fine representative collection of types, dates, and some varieties, practically all in choice condition.

Lot No. 2798

The CELEBRATED U. S. 1913 LIBERTY HEAD NICKEL!

1913 U. S. Five-Cent Nickel with **LIBERTY HEAD.** Uncirculated, sharp, with bold impression. Only five specimens struck and this one is as choice as exists.

This is only the second time since the coin was minted, thirty-four years ago, that a specimen is offered at auction. The first specimen offered was in my Sale of the Olsen Collection, where this coin brought $3,750.00.

As stated in my catalog of the Olsen Collection, I plead guilty to being responsible for making this coin so famous; having used it in all of my national advertising for more than a quarter of a century, during which time it appeared in advertising totalling an expenditure of well over One Million Dollars.

The regular coinage of the Liberty Head Nickels, as is well known, was discontinued in 1912 and was followed by the Buffalo Nickels which appeared in 1913. But apparently a few specimens, only five, of the Liberty head type, were also struck in 1913. The entire lot was purchased by the late Colonel E. H. R. Green. When his collection was disposed of privately, the late Mr. B. G. Johnson of St. Louis, purchased the lot and they were sold individually to various dealers and collectors. As stated in my catalog of the Olsen Sale, this great rarity is better known and is of greater fame than ANY coin ever minted by the United States, not even excepting the 1804 Silver Dollar. When I offered the first specimen of the 1913 Liberty Head Nickel, I stated that it was difficult to place a value on a great rarity of this caliber. I did state that one of the purchasers of this Nickel, who obtained it from Mr. Johnson, valued his specimen at $5,000.00. And as stated, the specimen above offered, brought $3,750.00 in the Olsen Sale. Rarities may be down a bit today, but this is still a great rarity and of great value. I do not hesitate to repeat what I stated in the Olsen Catalog, that certainly this great coin will prove a most gratifying source of possession to the fortunate owner.

UNITED STATES SMALL CENTS

The Series of Small Cents Has Always Been and Still Is One of Our Most Popular Series of Coins, Especially In Choice Condition.

The coinage of Small Cents began in 1856. They were minted at the Philadelphia Mint only until 1908. In 1908 coinage began at the San Francisco Mint, and in 1911 at the Denver Mint.

The Very Rare Flying Eagle Cents of 1856

2921 **1856** The greatly-in-demand Flying Eagle Cent of first year of issue. Copper-nickel, more nickel than copper, as it is very light in color. Sharp proof in nearly full brilliancy. This rare coin was purchased by Mr. Neil in my Sale of the celebrated Ten Eyck Collection in May of 1922, a quarter of a century ago. It has been in Mr. Neil's Collection all this time. Mr. Neil paid the then "huge" sum of $12.00 for this rarity. It now catalogs for $175.00 but a specimen in the same condition in my Sale of the Geiss Collection brought $192.50 on a $200.00 bid. My regular retail price for this coin is not less than $200.00.

2922 **1856** Beautiful and extremely rare Pattern. Obverse, flying eagle in plain field, no date. Reverse, type of regular issue. A-W 212. Only 8 specimens said to have been struck. Beautiful iridescent brilliant proof. From the Olsen Sale conducted by me in November, 1944, where Mr. Neil paid $172.50 for this beautiful and rare coin. At least ten times as rare as the regular 1856 Flying Eagle Cent.

2923 **1856** Another as last. Struck in copper. Reddish brilliant surface on obverse and iridescent surface on reverse. From the Olsen Collection at $165.00.

Lot No.

2926 1857 Variety with broken dies on reverse. Uncirculated. Scarce.

2927 1858 Large letters in legend. Brilliant lightly iridescent proof. A gem coin, and as such, rare and valuable. Catalogs $50.00, but a similar specimen in my last Sale brought $58.50.

2928 1858 Large letters. Uncirculated with full mint luster. Catalogs $8.50.

2929 1858 Small letters in legend. Brilliant uncirculated, almost like a proof. Very scarce. Catalogs $10.00.

2930 1858 Small letters. Variety with legend and date double-struck. Uncirculated. Rare variety.

2931 1858 **Small eagle.** Reverse, olive wreath. Brilliant proof. Very rare, far more so than the 1856. Not more than 75 specimens struck, while there were 1000 struck of the 1856 flying eagle. Rare and valuable.

2932 1858 **Indian head.** Oak wreath and ornamental broad shield on reverse. Proof. Rare. Only about 75 minted.

2933 1858 **Indian head.** Reverse, olive wreath without shield. Copper-nickel. Proof. Wire edge. Only about 75 minted. Rare.

2934 1859 Olive wreath. Proof. Very scarce. Catalogs $10.00. From the Cowell Sale held by me in 1923. It has been in Mr. Neil's Collection for more than a quarter of a century.

Excessively Rare 1864 Bronze Cent With L in PROOF!

Lot No. 2950

1864 Bronze Cent with L on ribbon. Beautiful iridescent proof. Mint red nicely blended with iridescent purple. Straight edges. One of the very rarest varieties of U. S. Bronze coins and undoubtedly the rarest of all small cents. It is rather strange or an interesting coincidence that in my more than forty-five years of numismatic experience I have only handled three specimens of this rarity, including the one here offered, and two of them came consecutively in two Sales. The last specimen I sold, which was the second specimen I have ever handled, was in my Geiss Sale last February, where a similar coin brought $237.50 and the buyer was willing to go up to $250.00 for it. A coin that is most difficult to obtain and will certainly prove a joy to the fortunate owner.

2951 1865 The obverse is iridescent; the reverse is a brilliant proof. Catalogs $12.50.

2952 1866 Brilliant proof. Catalogs $15.00.

2956 1869 Brilliant proof, slightly iridescent. Catalogs $20.00.

2958 1871 Brilliant proof. From the Marcusson Collection in 1925. Rare. Catalogs $25.00. A similar specimen in my Sale of the Geiss Collection brought $25.00.

2959 1871 Struck on slightly thinner planchet and struck in **pure copper.** Beautiful iridescent proof. Very rare. Probably not more than six specimens minted. Cost $21.00 several years ago. In point of actual rarity, it is as rare as any small cent.

2960 1872 Brilliant proof, slightly iridescent, golden color. From the Cowell Sale sold by me in 1923. It now catalogs for $27.50, and believe it or not, in 1923, this coin brought Ten Cents.

2961 **1872 Struck in pure copper.** Thin planchet. Beautiful brilliant proof with wire edge. Only about five specimens minted. From the Roach Collection at $21.00 in 1944. Certainly worth much more today.

"HARD TIMES" TOKENS or JACKSON CENTS

These tokens were issued from 1834 to about 1841 and passed current as One Cent. Their issue was prompted by the Currency question which was then a great political issue. And most of these tokens bear inscriptions politically significant. These tokens represent one of the most interesting and historical series in our coinage. For some reason or other they have not been very popular among collectors for some time. At one time they were in great demand and commanded high prices. The wise collector would invest in these tokens now. He will have a most interesting series of coins and certainly a profitable investment.

U. S. ENCASED POSTAGE STAMPS

With the hoarding of "hard money" during the early months of the war between the States, all kinds of coin became very scarce, so much so, that in New York City, the scarcity was so acute that people had to walk due to the lack of small change to pay trolley fare. In 1862, J. Gault of New York, devised and received the patent for a metal case with mica face covering, in which a postage stamp of the period was placed and protected, the back of the case providing space for advertising. These passed current at face value. This series constitutes one of the most interesting of all necessity money ever issued, They are interesting both to coin as well as stamp collectors.

COMPLETE SET of THE NUMISMATIST

Complete set of this popular publication, which was founded in 1888. This set is complete from Volume I, 1888, to 1945, inclusive. Volumes 1 and 2, 1888 to 1890, are bound in one volume; volumes 3, 4, 5, and 6, 1891 to 1893, in another volume; from 1894 to 1899 inclusive, they are bound in four volumes. These first volumes are bound in half red morocco and are from the collection of Mr. P. O. Tremblay of Montreal. From 1900 to 1945 inclusive, they are unbound but in original covers and each volume is wrapped separately. An index for each volume or year is included, also an index for the first fifty-year publication.

This is only the third set of this famous publication that has ever passed through my hands, and according to the best information I have, only six complete sets are known to exist. As can be readily imagined, this complete set of the Numismatist embraces practically a complete numismatic library. It covers numismatic information extending for a period of more than one-half a century. The last set I sold, in my Sale of the Philpott Collection in 1945, which was a fully bound set, brought $585.00. But it has a higher auction record. There will be a charge of $4.00 for packing this lot.

3420 **American Journal of Numismatics.** Complete set. Volume 1 to 53 inclusive, 1866 to 1919. Some of the later volumes treat on special subjects and were issued in two or three parts to the volume and sold at $3.00 per part. Another practically complete numismatic library. A wealth of valuable information. I doubt if there are more than a dozen or so complete sets in existence. In original covers. Perfect condition. Sold by the lot. Of much value to every collector. Packing charge of $2.00.

3421 **The Coin Collector's Journal.** Published by the original Scott Company of New York. Complete set from 1876 to 1888 inclusive. All bound in blue cloth, gold stamped. Perfect condition. A complete set of thirteen volumes bound in twelve bindings. Another invaluable "numismatic library." Please make your bid for this by the lot and not by the piece. A packing charge of $2.00 on this lot.

Lot No.

3422 **"Numismatic Notes and Monographs."** Published by the American Numismatic Society of New York, the oldest numismatic association in America. Set of their interesting and valuable monographs, profusely illustrated with halftone plates, covering practically every numismatic subject. Volumes 39 to 71 inclusive. Some of the issues have as many as seventy-two page plates of coins illustrated, a goodly number on various issues of ancient coins. In original covers and in original envelopes. These books are in absolutely "mint condition." Includes the volume by Valentine on the United States Half-Dimes, the standard on the subject today, with 94 page plates, illustrating all the Half-Dimes in enlarged photographs. Wonderful library in itself. Sold as a lot. Some of these volumes sell up to $5.00 each. A packing charge of $4.00 is made on this lot.

3423 **Mehl's Numismatic Monthly.** Complete set of ten volumes published from 1909 to 1919. Original covers. Very scarce. Modesty prevents me from saying much about this publication. Very few complete sets in existence. Sold as a lot. A charge of $1.00 will be made for packing.

3424 **Elder's Monthly.** Published by Thomas L. Elder, New York, 1906 to 1908. Complete and perfect. Many interesting items. Quite scarce.
